

Student Consent Form

You are invited to be a participant in Brecksville-Broadview Heights AP Research study. Today's experiment will take a look into the association between external variables and the feeling of beauty. You will have the opportunity to benefit by analyzing your own relationship with yourself and your feeling of beauty.

In the form of a google form survey, you will be answering a series of questions that pertain to your identity (barring your personal identifying information) and how you feel about certain aspects of beauty. Your name and any explicit identifying information will not be shared or connected with your answers; everything will be anonymous. All questionnaires will be kept confidential and not be shared with any outside entities. All paper questionnaires will be shredded at the conclusion of this project.

Some of the questions could potentially be triggering for some people because some questions ask about insecurities and self esteem. If you feel uncomfortable with answering these questions, you have the option to discontinue taking part in the survey or stop participating.

This experiment will take approximately 10 minutes. You are here voluntarily and you have the option to drop out at any time if you feel uncomfortable. For students, you can count the time served in this experiment as service hours, cite Mr. Lesh as the advisor. Any inquiries or questions can be directed at my personal phone number, 440-558-6122, or my school email, 25wolfa@bbhcsd.org. A final copy of my paper can be given upon request after submission to CollegeBoard. My class will also be presenting our findings during the last week of April that you are welcome to come and watch. Contact my email for more information if you are interested in any additional information.
