

*California Healthy Kids Survey, 2023-2024***Valley High School**

Your school needs the students to complete this online survey to help improve school culture and climate. This letter explains the survey, and at the bottom of the page, provides the URL and access instructions. If you have any questions about this survey, contact Larrah Feliciano at lfelicia@egusd.net.

The purpose of this survey is to obtain information from the students about their knowledge, attitudes, and behavior about things that affect learning. It deals with such issues as truancy, safety, harassment, substance use, school connectedness, and learning supports. Students will first answer a question about their current learning situation and then be directed to questions appropriate for that situation (distance learning or on campus).

Student participation is voluntary. It is also very important. The information provided will help guide district and school efforts to promote safety, enhance learning supports, improve student achievement, and reduce health risks that stand as barriers to learning.

- **This is an anonymous survey.** It is designed so that no one can be identified from the data. Students do not have to respond to any questions that they feel could be used to identify them. Instruct them to simply skip any such questions.
- **All questions apply to this school only.**
- **The results are for the use of the district.** CDE and WestEd will preserve data confidentiality and refer any data requests to the district.
