Many programs have specific deadlines for application or declaration; contact the department or program chair for information. General education course requirements are listed assuming that major classes will not count toward the general education course requirements. If a course counts towards a major and a general education requirement (e.g. PSYC 101 if the student is a psychology major), students will still need to take (shown here as Graduation Hr Req) enough courses to reach the 128 credits needed to graduate.

****This degree requires 4 additional courses to fulfill the graduation hour requirement of 128. Students should consider using these 4 courses to add a minor or a second concentration. Minors range from 4-7 courses. Speak with a School of Business advisor to map out what would fit best in your degree.**
