Got a question about a security practice?

Need advice on how to approach a security problem, process or policy?

Want a quick review of your security posture?

Come to this open ended session with practicing District Tech Directors, Network admins, BOCES/RIC staff and industry partners. We hope you'll walk away with some ideas on how to approach your problem, and some possible solutions.

We hope that participants will be able to contribute to the discussion as well!

Co Facilitators:

Josh Finn, Chief Information Officer, Homer Central Schools

Kieran O'Connor, Executive Director of Planning, Development & Technology, East Syracuse Minoa Schools

Topics to ask about, but not limited to (in no particular order)
