Color Words: All
Ways to Make 3
Identifying, comparing, and
composing shapes

Social Studies/Science: Our unit this week is on "Fall." We will be discussing this season, how leaves change, activities we might participate in, and the weather at this time of the year.

Special notices

Please read your child's library books to them every night. There is an awards assembly in December. Some children are not getting their books read to them. If this continues they will not have the needed AR points to receive an award. Please listen to them read to you if they have a reader. Some are not where they need to be in their reading skills because they are not reading with you at home. Have a great weekend!
