

Goals for Class and PLP - GED 529

Taylor, Jake

26th January, 2020

Goals for Class

- I want to be able to apply personalized learning in a variety of educational contexts, such as athletes, outdoor learning, etc.
- I want to be fluent in a variety of tools that can facilitate progress, evidence collection, showcasing, etc.
- I want to create a toolbox of resources for students, athletes, learners, etc. for developing personalized learning plans.

Plan for PLP Project

- I will be reviewing and revising my current [professional portfolio](#) during the course.
- I am developing a website for students and instructor candidates that may be involved in our [paddlesports program](#). It is meant to provide information on training and development pathways, resources, etc. This is something that I am just starting, and I believe this would be a great focus for the course.
- I am also in the middle of developing and revising a similar website that is used for our [Mountain Leader Course and Instructor Training Program](#). This is a more targeted audience of the Adventure Sports Center. This will not be my direct project for the course, but I will be working on it this semester, so it will be useful to incorporate ideas and learnings from the course into it.

Goals & Achievements from Professional Portfolio:

Professional Goals

- Complete a Masters of Education with a concentration in Curriculum at [Saint Michael's College](#) by the Summer of 2021.
- Continue to pursue professional development in adventure sports coaching and instruction.
- Continue to pursue a career in education working in traditional and non-traditional schools focusing on outdoor, experiential, and physical learning.
- Pursue a doctoral degree in Education following an extensive career in education.

Personal Goals

- Start a family with my wife Debbie.
- Become conversationally fluent in Spanish and Mandarin.
- Be able to read simplified Chinese at a basic level.
- Circumnavigate Taiwan via SUP.
- Continue to compete in SUP races.
- Continue to crew on off-shore sail races.

Achievements

- American Canoe Association Instructor Trainer [December 2017](#)
- Offshore Sailing Race - Hong Kong to Vietnam [2017](#)
- Competed in 4 Hong Kong International [SUP Races](#)
