

AI – Proposal Feedback – Evaluation

Prompt: As an expert evaluator of self-directed learning projects, please analyze the Evaluation section of my proposal using the Thinkering Studio Proposal Rubric. Focus specifically on:

1. Assessment of current level against the rubric criteria for:
 - Novice/Apprentice
 - Journeyman/Journeywoman
 - Master levels
2. Provide detailed, actionable feedback in two parts:
 - Specific improvements needed to reach Journeyman/Journeywoman level
 - Specific improvements needed to reach Master level

Please read the whole proposal, but concentrate your evaluation solely on the Evaluation section, using the rubric's evaluation criteria.

Maintain an encouraging tone and emphasize the learning process over the final product.
