		clarification			
		* Processes the output of each			
		group.			

F.	Developing mastery (lead to formative			
	assessment 3)			
G.	Finding practical application of concepts and skills in daily living	Pupils will share their reflection/reaction/insights on the following scenarios/situations  1. Aling Nena is pregnant, what health services can the community provide for her needs?  2. Lolo Jose cannot afford to buy medicine for his tuberculosis, where can he ask for free medicines?  3. It's summertime, Noynoy, an incoming Grade 6 pupil is ready to have himself circumcised. Where can he go to avail free circumcision service?	Think-Pair-Share Directions: Learners will share and compare possible answer to the questions with a partner before sharing to the larger class. Guide Questions:  1. What are the benefits of availing health services in the school and in the community?  2. How can you promote the use of health resources and facilities in the school and in the community?	
н.	Making generalization and abstractions about the lesson	The teacher and the learners will elaborate the concept that:  Identifies community health resources and facilities that are of big help in addressing various personal health issues and concerns	The teacher and the learners will expound the concepts about:  * Availing and promoting the use of health services and resources in the school and in the community  The teacher will guide the learners in forming generalization and abstractions about the above mentioned lesson.	
I.	Evaluating learning		True or False 1. Every Pupils has the right to avail the health services in the school. 2. Among the most important and valuable resources a person can have access to are health resources. 3. It is not important for people to have access to free or discounted health services. 4. School clinic services are provided by medical professionals. 5. Every health center is equipped to provide primary health care.	
J.	Additional activities for application or remediation			
V. REM	ARKS			

VI. REFLEC	TION	Assessing vourself as a teacher an	d analyzing the students' progress t	his week	
A. N	lo. of learners who arned 80% in the valuation	Assessing yoursen as a teather an	a analyzing the students progress t	iiis week.	
ac ac re	lo. of learners who cquired additional ctivities for emediation who cored below 80%				
le le ca	old the remedial essons work? No. of earners who have aught up with the esson.				
cc	lo. of learners who ontinue to require emediation.				
st w	Vhich of my teaching trategies worked vell? Why did these vork?				
er pı	Vhat difficulties did I ncountered which my rincipal can help me olve?				
lo us w	What innovation or ocalized materials did I sed/discover which I wish to share with ther teachers?
