

Want to get a slot to a Starter? This is the place to be!

Starter Sindows help introduce new genes into the group! They are owned by the group and may act as NPC's from time to time. There are several ways you may earn a slot to starters.

- Contests
- Monthly Quests
- Wishing Pennies
- Buying a Slot

Starter Breeding Rules and Info:

- You may breed your Sindow to a starter (if you have a slot to the starter) or breed two starters together (if you have slots to both starters).
- A breeding with a starter or two starters together will always result in 2-6 offspring (plus any bonus items you may have).
- If you breed your Sindow to a starter, *your* Sindow will determine career (official/street), stats, and bloodline. If you breed two starters together, line and stats will be given, you will have to determine whether or not you want the offspring to be official or street in the breeding log comment! Their line will be unknown!
This is no matter what the BG or ID number of the Starter is. They are all neutral!

- Starters will have a listed Genetic Quality. Starters also have a chance to improve their genetic quality whenever they are drawn they'll earn 1 GQ. If the starter you want a slot to does not have a Genetic Quality listed, it'll get one upon request.
- When breeding two starters together, you do not have to worry about type (as in breeding an avian to a standard etc...) the breeding will be rolled as if you have a test tube item, which allows two types of non-compatible Sindows to be bred together. If you are breeding a Sindow of *yours* to a starter and they are non-compatible, you will need a test tube item, which can be bought from the shop or earned from monthly quests and wishing pennies. To see if your Sindow type is compatible with the starter type, go here: [Breeding Two Types of Sindow](#)
- You may sell/giveaway/trade your starter slots at any time.
- You also have full control over the litters that you've bred from two starters or a starter x your Sindow. You can sell them, give them away, trade them, etc...
- You may also do splits, pick of the litter, etc with others if you have starter slots to use.
- So, pretty much, after the slot has been reserved for you, you can do what you want with it.

The Starters:

- The price for each starter is listed by rarity of said starter.
- If making an AP payment, there is no need to notify anyone beforehand, just do the correct amount of AP and submit it! With

AP, if you are 1-2 points under what is listed, don't worry about it, but you should try your very best to get the exact amount of AP!

- Some of these starters have info about slot prices in their descriptions, those are very outdated pricing, look here for actual prices. The Sindows rarity may be the same as well. Some genes have been changed and/or switched around.
- Prices are generalized for rarity, not per gene/trait.

Want to find a certain type, coat, or color? You can use the find option to search for it, as I've listed the gender, breed, coat length, and pheno for each starter.

You can also use this spreadsheet which is more organized than this list → [Starters](#)

*Some links may be broken, I will be fixing them ASAP

Common Starters:

SC Price: 8,000 SC

AP Price: 15 AP per Sindow

Getting a Slot:

If paying in USD, you must reply here with the starter(s) you want to get a slot to and be ready to pay as soon as admin respond!

<https://www.deviantart.com/comments/1/764755573/4956941175>

If paying in SC, you must reply here with the starter(s) you want to get a slot to and be ready to pay as soon as admin respond!

<https://www.deviantart.com/comments/1/764755573/4806256581>

Payment may be done in varying payment types, i.e. you may pay half SC, half art. 100 in SC and the rest in art, etc... Just make sure this is apparent when you go to pay. For a mixed payment, respond here.

<https://www.deviantart.com/comments/1/764755573/4956941635>

If paying in art or writing, it does not matter what type of art you do, as long as the AP value is met for the starter(s) of your choosing. Once you have all your art complete respond with it here:
