EXPERIENCE

CV-Template | Front-end Developer/ Founder | Apr. 20XX – Present

- Enabling non-designers to create a professionally designed CV, CV-Template has over 33,000 users, a book publication, two government mentions, and a publication in the Knoxville News Sentinel. It is making a fast progression in the online CV market.
- Created and designed the complete website & front-end application in JavaScript (now V3) with an AJAX interface to Laravel (back-end).
- Performed marketing tasks like SEO, backlink outreach, reporter outreach direct mail marketing, and A-B/multivariable testing.

WLDM | Front-end Developer | Jan. 20XX–Present

- Designed and developed platforms like Breakzy (Vue.js), Canopy Organize Manual (Drupal 7) & BrightMoments (education platforms).
- Designed and developed dozens of custom WordPress websites.
- Specialized in interactive JavaScript experiences such as various mini-games for the e-magazine Drink Inspiration.

CompanyX | Drupal 7-8 Developer | Dec. 20XX – Mar. 20XX

- Developed a new Drupal 8 website in an Azure environment.
- Detected/released regular updates and bug fixes on all the Monuta websites, including companyx.nl, company2.nl, and over 180 franchise websites.
- Cooperated with the marketing team and implemented split tests. Hotjar heatmaps (respecting privacy policy) and managed the Google Tag Manager account.

FabLab Breda | Drupal 7 Programmer | Jan. 20XX – Jul 20XX

- Designed and developed FabLab Breda, a complex Drupal application optimized around Fabmoments; technical tutorials containing instruction about clients' projects, such as technical specifications (3D painter/laser cutter) and relevant files.
