Mike Bost & DC special interests attack conservative outsider Darren Bailey to hide Bost's shameful border record.

Bost voted to grant amnesty for citizenship for one point eight million illegal immigrants.

A 2,741 page, \$1.5 trillion omnibus spending package fill with Biden's policy priorities along with an attached \$13.6 billion for aid to Ukraine. It fails to reverse the COVID-19 emergency or the Biden administration's vaccine mandates, as conservative leaders have called for, and doubles down on the Green New Deal style government subsidies for green energy and climate policies.

H.R. 5038, the Farm Workforce Modernization Act, grants amnesty to millions of illegal immigrants without doing anything to reform our broken immigration system.

[Immigration Bill to Grant Amnesty to 1.8 Million Illegal Immigrants](#)

This week, the House will consider the Border Security and Immigration Reform Act (H.R. 6136). The bill would grant amnesty to an estimated 1.8 million illegal immigrants and put them on a path to citizenship. Amnesty, as The Heritage Foundation explained in 2013, "comes in many forms, but in all its variations . . . treats law-breaking aliens better than law-following aliens, and encourages future unlawful immigration into the United States."

CITE: Bost's voting record shows that he has, on several occasions, voted to send money to Ukraine while the southern border remains porous and President Trump's border wall remains unfinished. For instance, on May 10, 2022, Bost voted in favor of HR 7691, which sent \$40 billion in taxpayer fund to assist Ukraine, but contained no money to finish

... and as the invasion on the border gets worse... Bost handed out forty billion in taxpayer dollars to Ukraine... instead of funding Trumps border wall.

Career politician and DC insider Mike Bost failed to keep us safe... by failing to finish Trumps wall.

DARREN BAILEY

I'm Darren Bailey and I approve this message.

President Trump's wall.¹ In March 2022, Bost voted for a \$1.5 trillion spending bill. The bill included \$13.6 billion in aid for Ukraine, massive increases in federal health-care, education, science and defense programs, and new funds for the IRS. The bill was also packed with earmarks, including several sought by Bost.² Bost did not, however, seek any funding to complete the southern border wall.

These are just two examples when Bost voted to send money to Ukraine instead of spending that money to complete the southern border wall. While some have pledged to vote no against all foreign funding until the southern border wall is complete, Bost continued to send money overseas instead of completing the wall.
