**Abstract:** A concise and factual abstract is required (maximum length 250 words). The abstract should state briefly the purpose of the literature review, the principal results, and major conclusions. An abstract is often presented separate from the article, so it must be able to stand alone. References should, therefore, be avoided, but if essential, they must be cited in full, without reference to the reference list. Non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself.

*Book Antiqua 9pt Bold, Space 1, Justify*

**Keywords:** Immediately after the abstract, provide a maximum of five keywords, avoiding general and plural terms and multiple concepts (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes.

## Introduction

*Book Antiqua 11pt Bold, Space 1, Justify*

State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results.

*Book Antiqua 10pt, Space 1, Justify*

## Method

*Book Antiqua 11pt Bold, Space 1, Justify*

Literature review process and method should be clearly defined.

*Book Antiqua 10pt, Space 1, Justify*

## Result and Discussion

*Book Antiqua 11pt Bold, Space 1, Justify*

Results should be clear and concise. The discussion should explore the significance of the results of the work, not repeat them. A combined Results and Discussion section is often appropriate. Avoid extensive citations and discussion of published literature.

*Book Antiqua 10pt, Space 1, Justify*

## Conclusion

*Book Antiqua 11pt Bold, Space 1, Justify*

The main conclusions of the study may be presented in a short Conclusions section, which may stand alone or form a subsection of a Discussion or Results and Discussion section

## Acknowledgments

*Book Antiqua 9pt Bold, Space 1, Justify*

Place acknowledgments, including information on grants received, before the references, in a separate section, and not as a footnote on the title page

## Author Contributions

*Book Antiqua 9pt, Space 1, Justify*

For articles with several authors, a short paragraph specifying their individual contributions must be provided. The following statements should be used "Conceptualization, X.X. and Y.Y.; methodology, X.X.; software, X.X.; validation, X.X., Y.Y. and Z.Z.; formal analysis, X.X.; investigation, X.X.; resources, X.X.; data curation, X.X.; writing—original draft preparation, X.X.; writing—review and editing, X.X.; visualization, X.X.; supervision, X.X.; project administration, X.X.; funding acquisition, Y.Y. All authors have read and agreed to the published version of the manuscript." Please turn to the [CRediT taxonomy](#) for the term explanation. Authorship must be limited to those who have contributed substantially to the work reported.

## Funding

*Book Antiqua 9pt, Space 1, Justify*

Please add: "This literature review received no external funding" or "This research was funded by NAME OF

FUNDER, grant number XXX" and "The APC was funded by XXX". Check carefully that the details given are accurate and use the standard spelling of funding agency names at <https://search.crossref.org/funding>. Any errors may affect your future funding.

## Conflicts of Interest

*Book Antiqua 9pt, Space 1, Justify*

Declare conflicts of interest or state "The authors declare no conflict of interest." Authors must identify and declare any personal circumstances or interest that may be perceived as inappropriately influencing the representation or interpretation of reported research results. Any role of the funders in the design of the study; in the collection, analyses or interpretation of data; in the writing of the manuscript; or in the decision to publish the results must be declared in this section. If there is no role, please state "The funders had no role in the design of the study; in the collection, analyses, or interpretation of data; in the writing of the manuscript; or in the decision to publish the results"

Guideline for bibliography in Journal of Material Science and Radiation is as follows:

1. References must be the same as citations
2. Minimum 30 references for research article and 50 references for Literature Review, 80% of them are primary references such as journal articles, conference proceedings, and thesis/dissertation.
3. The references must be last 10 years
4. The authors are highly encouraged to use reference manager such as Mendeley, Zotero, EndNote, and others
5. The references applies APA 7<sup>th</sup> Edition (American Psychological Association). Further read about APA is available here <https://apastyle.apa.org/>
