

To write on the doc you have to copy it first- otherwise everyone will write all over my doc and spoil it for me- to do that go FILE- MAKE A COPY- then you will be able to write on it yourselves in your own Google account and delete this bit. <http://allanahk.edublogs.org/2013/05/17/enhancing-workflow-on-an-ipad/>

**Instructions: Find a person that can show you how to do one of these items and have that person sign the box. They must show you how to do the task and then you have to do it too!
Yell "ALLANAH!" when you have 5 items in a row to get a prize!**

I can turn my wifi on and off in Settings when it hasn't hooked up properly.	I can sign in and out of the iTunes store.	I can use the search page to find an app, email or other content.	I can go to restrictions and make it so no one can delete any apps.	I can start a new sentence by double tapping the space bar.
I can switch between open apps using four fingers.	I can put apps into folders.	I can enable Speak Selection http://allanahk.edublogs.org/2013/06/02/speech-selection-and-reader-with-an-ipad/	I can open an attachment in my email on my iPad.	https://sites.google.com/site/initialipadsetup/ I can go to Allana's iPad website and find iPad tutorials and excellent apps.
I can lock the rotation so my screen stays in portrait or landscape.	I can organise my apps on to different screens by pressing down on them until they wiggle and then moving them.	I can force quit an app by double tapping home, holding the app, and pressing the minus sign.	I can take a screengrab by holding down the home and power button at the same time.	I can copy and paste a sentence from one place to another.
I can put my iPad to sleep quickly or completely power it down.	I can enable Reader when I am reading a web page to get rid of distractions and make reading easier.	I can take a ten second movie and trim the clip at either end.	I can make a shortcut to a web page from Safari on to my home screen using "Add to Home Screen."	I can write a single number by sliding from the 123 and releasing.

<p>I can send an email with two photos attached to allanah.king@core-ed.org</p>	<p>I can add the macrons when I type Tēnā koe http://www.youtube.com/watch?v=bUgwfJiRd3Y</p>	<p>I can arrange my apps into folders and put a folder on to the bottom task bar.</p>	<p>I can make my iPad write in all CAPITAL LETTERS.</p>	<p>I can make a slideshow with music out of an album or camera roll.</p>
<p>I can find one particular word on a web page.</p>	<p>I can search in Safari by handwriting with my finger instead of using the keyboard. http://www.youtube.com/watch?v=jOcbt-y_Btk</p>	<p>I can make my iPad do a hard restart to clear problems if things aren't going how they should.</p>	<p>I can split the keyboard and bring the halves back together again.</p>	<p>I can put my iPad into Flight mode and switch it off before going on a plane.</p>
