ABSTRACT

Type the English abstract here. The content of *abstract* or abstract use font Cambria 10. Abstract consists of: main problem, purpose, method, result, and conclusion. It is written in the form of one paragraph, without reference, acronym, and *footnote*. It is not written in form of mathematics, question, and assumption. It is not copy paste results of sentences existing in the content of the manuscript. Length of English abstract is 200 words.

INTRODUCTION

The content of introduction is a fundamental issue or urgent issue or background issue of study/research. It is written in Cambria (font 11).

METHOD

The content of study is a technique of data collection, data resources, the way how to analyze data, correlation test, and so on, it is written in Cambria (font 11). In this chapter, it's also be listed a scientific formula that can be used as data analysis/correlation test.

RESULT AND DISCUSSION

Content of Result and Discussion

The main discussion contains of result and discussion; it is written in Cambria (font 11). The result is not raw data but the data that have been processed/analyzed by the method set up. The discussion is the result comparison obtained from the concept/theory available in the reference. The content of result and discussion include the statement, table, picture, diagram, graphic, sketches, and so on.

Table and picture are maximum 6 inserted by the names of table and pictures and resources

Content of Result and Discussion

This part contains sub main discussion written in the font of Cambria 11. Sub-discussion is written systematically. It is expected that no need to write it too much numbering.

CONCLUSION

The content of conclusion is written in Cambria (font 11). The conclusion is an overview of a research that has been done. It does not result summary of discussion which refers to ascertain theory, but the result of analysis/correlation test of the data discussed.

Acknowledgement (if any)

It is optional (if any). It is written in one paragraph by using a font of Cambria 11.

Abbreviation (if any)

It is optional. It is written in one paragraph by using a font of Cambria 11.

REFERENCE

The content of the reference is written with the font of Cambria 11 and 1 space. It is the reference/referral source used as an excerpt from the manuscript. Writing a reference uses the rule of *American Psychological Association (APA) 7th Edition*. The number of referral resource made as reference are at least 10 titles of scientific literature (80% is a primary reference and 20% is secondary reference). The source of primary references, such as: journal, research report, theses, dissertation and proceeding papers. Secondary reference sources, such as: books and online sources. Writing quotes is recommended It is better to use application of reference manager example Mendeley, endnote, Zotero, etc.

Example of Writing a Reference
