

Street Fighter Spoof - Standing Here (She Realized) Casting Call

Hello everyone, thanks for stopping by and checking out my casting call! This is a brief, comedic Street Fighter short requiring a few voices! I'll be detailing the characters below, but I'll need voices for **Elena** (Black femme performers), **Ibuki & Makoto** (Asian femme performers), and finally **Remy** (Male character, open to all performers)!

Here are some of my past works, if you're curious!

[Quoth the Cryptid](#)

[Commando's Code](#)

I hope to do more Street Fighter projects in the future, so please, as part of your audition, indicate whether you'd be open to reprising your role in a future work, thanks!

Formatting

- Please record all audition sides per character with a MAXIMUM of TWO takes; so if you're doing two takes for Ibuki, please do line 1, line 2, line 3 a brief pause and then line 1-3 with a notably different take, not something similar, please, show me your range!
Put it all in a single mp3!
- If you're auditioning for multiple characters, please separate auditions into separate mp3s! For example, all your Ibuki audition lines go in **Ibuki_Phoebe.mp3** and all Makoto lines go in **Makoto_Phoebe.mp3**
- Label the files **Character_YourName.mp3**

Character Bios:

Name: Makoto (Asian performers only)

Age: Early 20s

Character: The pint-sized powerhouse and head of the Rindo-kan dojo! Makoto is incredibly focused and serious about fighting and recruiting students to her dojo. Tomboyish, brash and a fighting marvel, she strives to honour her late father and show the world that Rindo-kan is the strongest style! She'll take on any challenge or challenger without hesitation, though sometimes that can lead to trouble.

Voice: I'm not looking for exact matches to the English or Japanese performers in the game. I'm very open to you bringing your own spin to her. She's a rough and tough tomboy who yells a lot, so be loud, be angry!

[English Voice Ref](#)

Sample lines (note: some lines are just for the audition and will not appear in final short):

- [During the heat of battle] "FALL, DAMN YOU! NO ONE IS INVINCIBLE!"
- [Prideful] "Nothing beats Rindo-kan Karate!"
- [Utter disbelief, almost embarrassed for opponent] "That...couldn't have been your best effort! Stop holding back!"

Name: Elena (Black performers only)

Age: Early 20s

Character: Arguably the kindest character in the entire Street Fighter franchise. Elena is incredibly sweet, open to friendship with anyone (**Akuma** actually considers her a friend!), and sees life optimistically. She sees fighting as a way to build new friendships and experience a cultural exchange. A Kenyan Capoeira fighter who loves animals, studies across the world and is eager to learn new things!

Voice: I'm not looking for an exact match to her official voice, but give her your own spin if you'd like. She speaks with a Kenyan accent, though I'm open to non-accented takes! Focus on that kindness and optimism, have fun!

Sample lines (note: some lines are just for the audition and will not appear in final short):

- [Trying to be optimistic & reassuring] "She could have a good reason. Maybe trouble at the dojo?"
- [Overjoyed] "I'm so pleased to have fought with you!"
- [Focused] "Nature itself forged my kicks."

Name: Ibuki (Asian performers only)

Age: Early 20s

Character: A young woman from a hidden ninja village. Due to her continuous training since childhood, she wants to throw it all away to live life as a normal, modern Japanese girl. Bubbly, spirited, and a bit thirsty for the fellas, she'd rather be going to parties, hanging out with friends, and joining fun clubs in university. Despite her efforts, she keeps being drawn further into the ninja lifestyle. Despite her frustrations with being unable to fully pursue a normal life, she's rather friendly and quick to make friends with others within the series. She has a pet Tanuki named Don-chan!

Voice: I'm not looking for an exact match to her official voice, but give her your own spin if you'd like.

[English Voice Ref](#)

Sample lines (note: some lines are just for the audition and will not appear in final short):

- [Impatient, annoyed] "Someone probably called her short again..."
- [Excited, eager] "Listen, if I beat you in a match, will you introduce me to some cool boys?"
- [Beaming, excited at possibly becoming Cammy's friend] "You like cats? What about raccoons? Wanna cuddle my Don-Chan?"

Name: Remy

Age: 20s

Character: The Furious Frenchman! Remy's a gloomy guy filled with loneliness and pain, but in this short, he's mellowed out a bit. He's a Savate fighter who, due to his father's disappearance, paradoxically hates all fighters.

Voice: I'm open to interpretation since he's never had an English voice actor before, but I'd like to get a VA who can do a French accent. He's a bit dramatic and I feel a medium-low voice would fit him well. Since it's a comedy, don't be afraid to have your French accent be a little bit silly.

Sample lines (note: some lines are just for the audition and will not appear in final short):

- [Dispassionate] "Victory, glory, and honor... Those ideas don't excite me a bit."
- [Ominous, threatening] "I'll give you an unsightly defeat!"

- [Disappointed, then dramatic] “Sigh...Once again...Remi...dances alone tonight! Allons y!”
