

SL: Your Conversion Rates

Hello [Name],

Congratulations on reaching [#] followers on [Social Media platform]; that is amazing!

I was looking at your website, and I saw an opportunity to improve your conversion rates for your amazing products.

Your products would sell much better if you sent emails out to your future customers. With emails, you can keep people updated on your newest products and best deals so that they purchase your protein, pre-workouts, and more.

I could help you improve your conversion rates by writing emails for you and just being an all-around problem solver, for free.

If you would like me to write you a sample email, reply back.

Always here to help,

Dominic R
