Dear Upper School Students and Families,

Summertime is upon us, and it is time to share the Summer Assignments for Upper School students. These assignments encourage independent growth and exploration, enabling you to develop relationships with your teachers and classmates. During Quaker Meeting on Wednesday, May 28, Allie and Maura worked through a Quaker Meeting for Business to explain the summer assignment to students. Allie presented this information to rising 9th-grade students on Thursday, May 29.

Every Upper School Student will have a **math** and **reading** assignment. Students taking an Honors English course and/or Honors Government and Political Advocacy course next year will have additional assignments. [Click here](#) to access the US Summer Assignments website.

- All students should open the Math and Reading tabs to access their assignments. (On the last day of school, students were given hard copies of the summer math assignment.)
- Students taking Honors Government and Political Advocacy should open the Honors Government tab for their assignment.
- Students taking Honors English can find the Honors assignment through the Reading tab, at the bottom of the page.

Have a great summer break!

In peace,

Tanisha
