## Physical Description and Personality:

Rook is a gigantic crocodile that was formerly the alpha predator of Gungry Lake. Rook is predatorial, and insular. He has a begrudging respect with Kiru who tamed him, but their relationship plays out more as mutual predators who benefit from each other in the wild than a man and his pet. As such, Rook will follow behind the crew's vessel for the most part, but won't communicate all too often with the crew.
