

CONSTITUTION & BYLAWS

PREAMBLE

This we believe:

We the Representatives of the Democrats living in Montgomery County — in order to form a strong party organization that empowers representative democracy within our party and throughout the county — do establish the Montgomery County Democratic Party Constitution.

Our country has a long history of honest men and women working hard to better themselves, their families, their communities, and their nation. The Montgomery County Democratic Party recognizes that the values of these people underline the principles which are at the heart of our system of government. These principles include:

a commitment to the importance of the individual and the right of each individual to self-determination.

a commitment to the proposition that each individual should have the freedom to formulate and act upon their own concept of the sort of life that is most appropriate for them, limited only by a responsibility to respect the life plans of others and the obligation to be sensitive to the common Good.

the belief that the government can and should exercise a positive, yet limited, role in safeguarding the security and promoting the well-being of each individual and the community as a whole.

These principles entail a belief in the moral and legal equality of each person. They also entail a duty on the part of individuals and their government to acknowledge and nurture the common bonds that unite us, as well as the private institutions which work to the benefit of individuals and society, and to respect and encourage the characteristics that allow us to be different.

The Montgomery County Democratic Party believes that each of us must take responsibility for maintaining freedom for all. Each of us must have the opportunity to have our voice heard in government and all of us must help those whose voices are too small or too weak to be heard alone. We believe that these principles are deeply embedded in our country's history and traditions and that our distinctiveness as a nation lies in our unflagging commitment to uphold them.

We are committed to upholding our democratic representative form of government and the principles embedded in the Constitution of the United States and the Constitution of the State of Ohio.

The Montgomery County Democratic Party offers itself as a forum for all those who share belief in these principles.

As duly elected representatives of the Montgomery County Democratic Party, we hereby adopt this:

PRINCIPLES & VALUES

As the Montgomery County Democratic Party, we are proud to adopt these principles and values based on our belief in a Montgomery County that values opportunity and equality for all its residents, and respects both the self-reliance of individuals and the benefits of teamwork, to meet the challenges of a fair and just society. To that end:

We believe that the best government is one that is efficient yet understanding – a government that is based not on systems or bureaucracies, but on people, ideas and values.

We believe there is no substitute for fair and equal representation and strong public participation in a government chosen by election.

We believe in a government that stands on the side of working families - that listens, understands and addresses their concerns.

We believe that all residents reap benefits when we, as a county, meet our challenges together.

We believe in the equality of all people and condemn any discrimination.

We believe in a society that strengthens families and protects our children.

We believe in the rights of all people to achieve economic security and find affordable housing, to seek good jobs at a livable wage, and protection for our workers in a growing, robust economy.

We believe in a society that puts the health, safety and prosperity of its residents first, one that promotes excellence in education, choices in quality health care and a healthy environment for all Montgomery County residents. We believe in a society that values community and protects all Ohio residents from violence and crime.

We believe in a society that respects our elders, who deserve the right to retire with the resources they need and have earned to support themselves in their golden years.

We believe in reproductive rights and the fundamental right of privacy for all individuals.

We believe in pursuing these ideals with honesty and integrity, with respect for the freedoms that we in Montgomery County are proud to call our own.
