

JURNAL MITRA

1. JURNAL TEORI DAN APLIKASI MATEMATIKA (JTAM)

- Jurnal ini terakreditasi SINTA 2
- Frequency : 4 issues per year (**January, April, July, and October**)
- **FOCUS AND SCOPE :**

a) MATHEMATICS

- **PURE MATHEMATICS**

Include analysis and applied analysis, algebra and applied algebra, logic, geometry, differential equations, dynamical system, fuzzy set, and fuzzy logic, etc.

- **GRAPH AND COMBINATORICS**

Include all areas in graph theory, combinatorics, number theory, coding theory, cryptography, etc.

- **APPLIED MATHEMATICS AND COMPUTATION**

Include mathematical modeling (including but not limited to mathematical physics, mathematical biology, mathematical medicine), control theory and automation, optimization, operational research, neural network, data science, machine learning, etc.

- **STATISTICS AND PROBABILITY**

Include all areas in statistics and probability, finance mathematics, biostatistics, actuary, etc.

b) MATHEMATICS EDUCATION

- **REALISTIC MATHEMATICS EDUCATION (RME)**

The journal receives the results of research on teaching and learning in RME-based mathematics education.

- **DESIGN OR DEVELOPMENT RESEARCH IN MATHEMATICS EDUCATION**

Includes of validation studies or development studies in mathematics education, with a comprehensive description and analysis of each stage.

- **PISA TASK**

Authors can submit their articles on the evaluation of the education system by measuring the scholastic performance of school students about math, science, and students' reading activities as well as measuring their math literacy.

- **MATHEMATICS ABILITY**

Includes the following abilities: reasoning, connection, communication, representation, and problem solving.

- **ICT IN MATHEMATICS EDUCATION**

It consists of the application of ICT in mathematical learning and the design, development, and evaluation of the implementation or application of learning media.

- **LESSON STUDY FOR MATHEMATICS LEARNING COMMUNITY**

Lesson study activities can apply learning methods or strategies that are in accordance with the situations, conditions, and problems faced by educators in the field of mathematics.

- **ETHNOMATHEMATICS**

The results of research on the relationship between mathematics and culture practiced by members of cultural groups who share experiences and practices similar to mathematics that can be in a unique form.

2. JOURNAL OF ENVIROMENT AND SUSTAINABILITY EDUCATION (JOEASE)

- Jurnal terakreditasi SINTA 2
- Frequency: Two times (**February, June**)
- Including literature reviews (systematic, meta-analysis), empirical and theoretical studies, essays, critical commentaries, case studies, and reviews of publications that enhance scholarly understanding of science education and environmental issues.
- **FOCUS AND SCOPE:**

Environmental Education	Outdoor Education	Science Learning in Everyday Life
Sustainability Education	Science Education	Issues in Science and Environmental Education Learning
Low Carbon Education	Science Teacher Education	New Trends in Science and Environmental Learning
Disaster Education	Science Education Policy	Environmental Science
Earth Science Education	Learning of Science	Urban Environmental Management and Planning
Environmental Risk Assessment and Management	Legal and Policy Frameworks for Environmental Protection	Land Use and Environmental Change
Climate Change Education and Policy	Disaster Risk Reduction and Urban Resilience	Remote Sensing and GIS for Environmental and Disaster Studies

3. MOMENTUM: PHYSICS EDUCATIONAL JOURNAL

- Jurnal terakreditasi SINTA 2
- Frequency: 2 issues every year (February & August)
- **FOCUS AND SCOPE:**
 - Learning Physics
 - Physics Education Innovation
 - Media Development, Learning Models, Assessment and Evaluation in Physics
 - Physics Education Policy
 - Issues and Trends in Physics Education
 - Physics Learning in Everyday Life
- **Link Jurnal:**

4. JOURNAL OF EPIDEMIOLOGY AND PUBLIC HEALTH (JEPH)

- Jurnal terakreditasi SINTA 2
- Frequency: published three times yearly (jadwal terdekat Juli Oktober)
- The journal welcomes original research articles, systematic reviews, and meta-analyses, on all aspects of communicable and non-communicable diseases prevention. It also publishes discussions of research theory, methodology, or public health policy.
- **FOCUS AND SCOPE:**
The journal welcomes research papers on all branches of epidemiology, including but not limited to lifestyle

epidemiology, infectious disease epidemiology, chronic disease epidemiology, social epidemiology, life-course epidemiology, nutritional epidemiology, and environmental epidemiology.

5. JOURNAL OF HEALTH PROMOTION AND BEHAVIOR (JHPB)

- Jurnal terakreditasi SINTA 2

- **Frequency:** published four times yearly (jadwal terdekat Juli dan Oktober)

- **FOCUS AND SCOPE**

The JHPB covers a broad range of topics including psychology, sociology, anthropology, communication, education, nursing, public health, and the allied health profession, as they are related to health promotion, health education, health-related behavior, and illness.

6. JOURNAL OF PHYSICS: THEORIES AND APPLICATIONS

- Jurnal terakreditasi SINTA 3

- **Frequency:** twice in a year (March and September)

- **FOCUS AND SCOPE**

Including semiconductor, photonic, magnetic, ferroelectric, nanoparticles, Cross-disciplinary areas, Earth Science, theoretical & computational physics

- **Link Jurnal:** <https://jurnal.uns.ac.id/jphystheor-appl>
- **Template Jurnal:**

- **Biaya Publikasi:** Rp 800.000

7. INKUIRI: JURNAL PENDIDIKAN IPA NASIONAL BER-ISSN

- Jurnal terakreditasi SINTA 4
- **Frequency:** three times a year (February, June, and October)
- **FOCUS AND SCOPE**
Focused on enhancing learning process and output; also developing educational instruments, media, learning models, and learning activities in natural science education, physics education, biology education, and chemistry education from primary to higher education.
- **Link Jurnal:** <https://jurnal.uns.ac.id/inkuiRI>

8. SOSIAL, HUMANITIES, AND EDUCATION (SHEs)

- Jurnal terakreditasi SINTA 4
- **Frequency:** 4 Issues per year
- **FOCUS AND SCOPE**

Psychology	Philosophy and Behavioral Studies	Sociology
Law and Legal Studies	Economics	Tourism

Language and Literature	Anthropology	History
Political Studies	Religion and Cultural Studies	Archaeology
Art	Folklore	Education

10. HABITUS: JURNAL PENDIDIKAN, SOSIOLOGI, AND ANTROPOLOGI

Frequency: twice a year ie 1st Edition: January-June and 2nd edition: July-December.

- **FOCUS AND SCOPE**
Original empirical research, literature reviews, theoretical or methodological contributions, integrative reviews, comparative or historical studies. Topics:
 - Social and Cultural Sciences for Education
 - Social and Cultural Problems in Society
 - Education Problems
 - Classroom Action Research
