

- I. **BEHIND THE BLOG:** i'm dirk, 23, he/him! i've been writing on tumblr on/off since early 2013. i took a while out, but now i'm back. don't forget youre here forever
- II. **DUPLICATES:** i don't tend to follow duplicates for my own peace of mind. i also ask that duplicates don't follow me - i get all paranoid that i'm 'doing it wrong' and it's no fun. nothing against you, it's just a comfort thing.
- III. **THE BASICS:** no force shipping, no godmodding, etc. i reserve the right to unfollow, drop threads, not follow back, etc. i'm mutually exclusive and memes/starter calls are for mutuals only.
- IV. **I'M OF AGE** but don't write smut. all other nsfw content is canon typical and will be written, but i will tag everything appropriately.
- V. **FLIRTING** is something a lot of my muses may just do - they are daft, most of them are brash and gross to boot. please don't assume this is me forcing a ship! your muse should feel free to respond however is realistic to them.
- VI. **CANON SUCKS!** my muses are mine now. i tend to talk a lot unprompted anyways, but if there's anything about them you're unsure of please feel free to ask!
- VII. **PASSWORDS:** rule passwords tend to spike my anxiety, but i read rules before i follow.
- VIII. **ICONS:** i have a full time job so frankly i will not be using them. i've always been terrible at graphics though so i'm doing us all a favour
- IX. **ON THAT SAME VEIN:** this blog will be low activity. i'm usually bouncing between here and okaywithed, too, so i might take a second to get back to you.
- X. **SHIPPING** is fine by me! i'll always prefer to develop a ship before jumping right in, so please don't hesitate to shoot me a message. i'm not exclusive with any ships aside from dirkjake and kantuna, who i write with worldneeds.
