

Hello, we are so glad you are here at Florida Virtual High School!

We want to do everything we can do ensure students have a successful school year, and part of that is screening students and determining any needed supplemental support. We also review data to determine areas where we can grow and improve as a school. By completing this assessment, you are helping us help you!

Please complete the i-Ready Diagnostic assessments in Reading **or** Math (as assigned by your teacher). Scores will be uploaded into FOCUS at the end of each testing window. If a student's score is flagged for rushing or indicates areas of academic concern, a staff member will make contact with the student/family.

Go to the following website: <https://login.i-ready.com/>

When the website comes up you will see a login box, please use the following to log in:

Username: (StudentID)(first initial)(last initial)

For example:

Name: Jane Doe

Student ID: 123456

Username: 123456JD

**Your Student ID can be found in FOCUS*

Password: (Your birthdate in this format) MMDDYYYY

State: Please select Florida from the dropdown menu, then click the GREEN GO button.

Once in i-Ready the student will see one or two boxes, Reading and Math. The student clicks on the subject to enter the diagnostic. Please take both the Reading **or** Math diagnostics (as assigned by your teacher). Complete one at a time and take a break in between the diagnostics.

Make sure the student has about **45 minutes to complete each of the diagnostics**. This time will allow the student to truly do their best.

Thank you for completing this task! We are extremely honored to have been chosen to provide you/your student's academic classes for the school year.
