

Solar System Notes

Structure of Solar System	Asteroid Belt
Kuiper Belt and Oort Cloud	Dwarf Planets

An Astronomical Unit is _____

After watching the short video clip, describe how scientists think the Solar System formed.

Inner Planets *also known as the* _____

Common characteristics	1st planet
	2nd planet
	3rd planet
	4th planet

Outer Planets *also known as the* _____

Common characteristics	5th planet
	6th planet
	7th planet
	8th planet
