

I would like to dance with you

I would like to dance with you
in the moonlight,

I would like to dance with you
in the starry night

Just the two of us if we could

The music is floating in the air
day and night

the whole world is around us
round and round

We laugh and smile
and open our hearts to one another

We can see
where heaven is
from each other's sight

We can feel
our hearts
are whispering softly

All I want to say is

If I could dance with my good friend
who is my best
dearest
dear
one

That will be the most precious thing
in the world
and the most beautiful memory
I could ever have
