

PCP Youtube Upload Instructions:

1. Sign in to Your YouTube Account:

If you don't have a YouTube account, you'll need to create one. If you already have an account, sign in.

2. Access YouTube Studio:

Once you're signed in, click on your profile picture in the top right corner and select "YouTube Studio" from the drop-down menu.

3. Upload Your Video:

In YouTube Studio, you'll see an "Upload Videos" button. Click it to start the upload process.

4. Select Your Video:

You can either drag and drop your video file or click the "Select files to upload" button to browse your computer for the video you want to upload.

5. Video Settings:

While your video is uploading, you can fill out the video details. You can add a title, description, tags, and a thumbnail. Make sure to add relevant information.

6. Privacy Settings:

Under the "Visibility" option, you'll see three options: Public, Unlisted, and Private. To make your video unlisted, select "Unlisted." This means the video won't appear in public search results, but anyone with the video link can view it.

7. Advanced Settings (Optional):

You can also click on "Advanced settings" to further customize your video's settings, such as setting the video location, category, and allowing or disallowing comments and video responses.

8. Save Changes:

After configuring your video settings, click the "Save" or "Save Changes" button to confirm your choices.

9. Video Processing:

Your video will now be processed by YouTube. The time this takes can vary depending on the video's length and your internet speed.

10. Get Video Link:

Once the video is uploaded and processed, go to your video list in YouTube Studio and find the video you just uploaded. Click on it to open the video's details. You will see the video URL at the top of the page; this is the shareable link to your unlisted video.

11. Share the Unlisted Video:

You can share the video link with anyone you want, and they'll be able to watch it, even though it won't show up in public search results.

That's it! Your video is now uploaded to YouTube, set as unlisted, and shareable via the provided link. Make sure to keep the link safe and share it only with the people you want to give access to your video.

Please keep the link active until you have received your music assignments from your session's Director of Music.
