

# SOC205: Week 5 Discussion

## Purpose

For this discussion post, you will take action to address climate change and report back to your peers.

## Tasks

1. Respond to the discussion prompt.
  - a. Worth 5 points, due 11:59 pm February 12
  - b. Using the content from this week's module, complete the following:
    - i. take action related to climate change or climate justice — your local community and the internet are full of ways that you can make a difference related to the environment (for example, join a beach clean up, speak up at a local council meeting about the effects of climate change and action that local government could take to address it, repost information from climate activists on social media, etc.)
    - ii. describe your action, and reflect on why it made a difference;
    - iii. explain your action using climate justice, environmental racism, critical climate justice, ecofeminism, or youth activism;
    - iv. your response should be 250-300 words.
  - c. Respond to a peer's discussion post, using the following requirements:
    - i. consider what resonated with you, what made you think in a new way, or a sociological perspective your peer could consider;
    - ii. provide an analysis of the initial post rather than a statement of agreement/disagreement;
    - iii. your peer response should be 100-150 words.
  - d. Submit responses in discussion board on Canvas.

## Criteria for Success

You will be awarded points based on the following criteria:

- Did you address each prompt?
- Did you meet the response length requirement?
- Did you respond to a peer?
- Did you engage with the peer's response rather than just agreeing/disagreeing with the response?
- Did you meet the peer response length requirement?
