ABSTRAK

Tulis di sini abstrak artikel Anda dalam satu paragraf, dengan gaya huruf miring, tidak lebih dari 100-250 kata. Abstrak bukanlah "pendahuluan", atau kesimpulan dari diskusi. Sebaliknya, harus berisi, tetapi tidak terbatas pada: (1) Tujuan penelitian; (2) Metode pendekatan, dan alat olah data yang digunakan; dan (3) hasil Penelitian (4) Kesimpulan dan (5) implikasi penelitian. Hal-hal penting lain yang dibahas dalam makalah ini yang secara signifikan berkontribusi pada hasil akhir penelitian dapat dicatat di sini, tetapi Anda harus mempertimbangkan, bagaimanapun, ruang abstrak yang terbatas.

[Taruh di sini Abstrak versi bahasa Indonesia Anda. Ini tidak wajib, tetapi kami sangat menghargai jika Anda dapat memberikan terjemahan abstrak dalam Bahasa Inggris kepada kami.]

Kata kunci: Sebutkan hanya konsep spesifik [kata atau frase], 3-5 konsep, kata yang benar-benar konseptual, dan jangan yang terlalu umum. Maksimal 5 keyword dalam bahasa Inggris yang mempunyai makna yang jelas dan has. Kata kunci dipisahkan dengan tanda koma (,)

ABSTRACT: Write here an abstract of your article in one paragraph, in italics, no more than 100-250 words. Abstract is not a “preliminary”, or conclusion of a discussion. Instead, it should contain, but not be limited to: (1) Research objectives; (2) the approach method, and the data processing tools used; and (3) research results (4) conclusions and (5) research implications. Other important points discussed in this paper that significantly contributed to the final results of the study can be noted here, but you should take into account, however, the limited abstract space.
[Put here your Indonesian version of the Abstract. This is not mandatory, but we would appreciate it if you could provide us with a translation of the abstract in English.]

Keywords: Mention only specific concepts [words or phrases], 3-5 concepts, words that are really conceptual, and not too general. A maximum of 5 keywords in English that have a clear and good meaning. Keywords are separated by a comma (,)

PENDAHULUAN

Your text is here, in 12 pt font-size, 1,5 line-spacing; don't add space before and/or after paragraph. It is much better to not format your text in a specific technique, instead, just leave it plain except that you really need to type certain words in a “special method”, or to emphasize certain word or words. Italic is a must in typing non-English word. Arabic word is transliterated based on Al-Jami‘ah style, which is available for download in PDF file format [url:].

Please explore in more words the background of your paper and your current research position among other research on related themes. You should discuss here as well your research's relations with those of other researchers; literature review, especially on most relevant, newly academic works published in high reputation journals, is a must.

To put it another way, please try to answer at least two questions: (1) why you believe that your research question is such an important to answer; and (2) how other scholars have or have not answered, or how you think your answer would be a contribution to the existing scholarship on the subject.

A detailed description of your methods in doing the research is not necessary to write down in this section, but if you think you have to do so, you may mention it slightly in one or two sentences.

A little bit of exploration on the flows of your discussion and the expected final results will be good points for closing this introduction section.

METODOLOGI PENELITIAN

The research method must be clearly and appropriately conveyed and contain a research design, population, sample, data collection method, and data analysis method, written with Book Antiqua 12 letter space 1. Conceptual articles/literature studies do not need to write research methods.

HASIL DAN PEMBAHASAN

Here you may discuss every aspect of the issue one by one. It is necessary to build argument and to provide original data discussed and compared to research and works of other scholars. In other words, the way to discuss an issue here is by combining the data and the discussion. So, it is not recommended to separate merely data description from the analysis on it.

Every quotation is written down in a specific way that can be identified as a “quotation” different from your original text. At the end of every quotation, you have to put its reference[s] in footnote style of Al-Jami’ah. A reference must also be put in the end of every citation that paraphrasing ideas from someone’s works. If citation is taken from a book, it must be like this, Sugiono (2017) and the subsequent citation is like this. Sugiono (2017)A book with volumes, Sugiono (2017) cited in a subsequent note; Sugiono (2017) please note that the footnote reference number is placed after [not before] any punctuation. Citations from any previous references, but not subsequently cited, is noted like this. Sugiono (2017) Just mention the last name of the author and the sorted version of the work’s title.

The Second Aspect of the Discussion, the Style of Other References

Examples of references other than book are paper in a journal, Sugiono (2017) or this journal, Sugiono (2017) websites, Sugiono (2017) magazines and newspapers, Sugiono (2017) reports, Sugiono (2017) book chapters, Sugiono (2017) a master thesis, Sugiono (2017) and a PhD thesis. Sugiono (2017) Please provide a complete internet url whenever available along with the date access (see footnote 8).

The Third Aspect of the Discussion, and so on

It is possible to add sections as needed. A section may consist of several sub-sections, typed in bold-italic and numbered list style, like the following example.

Sub-Section as Part of its Parent Section

You do not need to add any special indentation in typing body text under sub-section heading. The body text here is typed just like any other body text.

Another Sub-Section

Although you may need another sub-heading under this “sub-section”, it is strongly not recommended to do so. Instead, please arrange your discussion and explanation in narrative paragraphs. In addition, listing style of text paragraph is also not suggested.

Figure and Other Illustrations

If you need to include any table, figure, image, or other illustration, please provide a high resolution picture file as an attachment for your submission file.

We will be very happy, however, if you can convert such illustration into narratives and do not include any picture in your paper.

KESIMPULAN

Please provide here your remarks as closing statement. It could be a final conclusion from your discussion and analysis and your recommendations for further research project. In this section as well you may give your acknowledgment for people and parties whose supports make your research possible.

IMPLIKASI PENELITIAN

Please Provide an explanation of the implications of the research conducted on science or other fields, for example the implications for companies or parties with an interest in research results
