OER PROJECT: WH ORIGINS / LESSON 3.4 OPENER

## **MAKING PREDICTIONS**

## **Purpose**

Making predictions is a critical-thinking skill that improves retention and builds stronger connections between learners and history.

## **Process**

Fill in as many spaces of the prediction chart below as you can in the time your teacher allows.

Predict one political (P), one economic (E), one social/cultural (S), and one technological (T) effect that the new metal iron will have on <i>communities</i> .	Predict one political (P), one economic (E), one social/cultural (S), and one technological (T) effect that the new metal iron will have on <i>networks</i> .
P:	P:
E:	E:
S:	S:
T:	T:
