# MAKING PREDICTIONS

**Purpose**

Making predictions is a critical-thinking skill that improves retention and builds stronger connections between learners and history.

**Process**

Fill in as many spaces of the prediction chart below as you can in the time your teacher allows.

| Predict one political (P), one economic (E), one social/cultural (S), and one technological (T) effect that the new metal iron will have on *communities*. | Predict one political (P), one economic (E), one social/cultural (S), and one technological (T) effect that the new metal iron will have on *networks*. |
|---|---|
| P: | P: |
| E: | E: |
| S: | S: |
| T: | T: |
