

Getting To Know Mr. Voss

My name is Mike Voss and I will be your physical education teacher for this year. I am looking forward to finally see everyone again this school year and to be back in the classroom (gyms). Even though school may be a little different this year because of the situation that we are in, we still have a lot of fun games and activities planned for us to do in physical education to get you moving. Teachers have been hard at work to make sure that we will be safe when everyone arrives but are still able learn to and enjoy themselves.
