

## Theory Expert AND RR for Hamilton

Read your chosen theory chapter and become a class expert on that theory. Apply that theory to any parts of Hamilton the primary text and any secondary sources you want to use.

You'll have 30 minutes to work in groups on Tuesday, March 28 to share your ideas with the others who've become experts on the same theory as you. You'll present your findings and interpretations back to the whole class.

Type your name under the ONE theory you want to become an expert on.
