

Subject line: Hey katherine, insight i would like to share

Hello Katherine

you posting some amazing content right now

The (ready for the upcoming depressions) video

Really showed your audience how knowledgeable and how rational you are

but katherine i wanted show how you can really capitalize off you content

and help more people at same time

what i noticed about your channel in particular

you haven't yet monetized the attention that you get from your audience

and there is hundreds of ways to do it, but one i would like to discuss with you about one

a subscription based platform where you can you post exclusive video to subscribers

and again there are there are various ways to do that

That is why I would like to ask if you would be interested in having a chat on this, and I can show you other creators that do it and why and how it works.

thank you
