

CAFE INTERIOR DECORATION WITH [SNAKE PLANTS](#) AND CARE

-Looking for attractive as well as easy to care indoor plants for your restaurant or cafe decoration to give the ambiance a life.

Even though cafe interior design is very fascinating, filling up space with the cafe plants will make the cafe interior look alive, which will definitely attract the customers and force them to come again because of the peace of the environment.

Meanwhile choosing suitable cafe plants while managing a cafe or restaurant will take time to research. Here [urban plants](#) have made it easy for you.

The most popular and loving cafe interior plant is [snake plants](#) also known as Mother-in-law's tongue. This plant has stiff and sword-like leaves which ranges from five-inches to thirty-inches in pot depending on different varieties.

HOW TO DECORATE YOUR CAFE

The plant which is chosen for the greenery cafe should not take much space as it makes cafes look smaller than it is. [Snake plant](#) has straight swordy leaves which can be planted in any container you want as per required space.

- [Snake plants](#) can be decorated as a border plant outside of the cafe.
- It can be kept in an elegant white ceramic pot in long cylindrical, square shape etc.
- Longer leaves varieties should be used for decorating the surface area of the floor and the dwarf leaves varieties should be kept on the top of the table or at a certain height.

[SNAKE PLANT](#) CARE

SOIL

Snake plants can grow and do well in any type of soil, without worrying about feeding fertilizer periodically.

WATER

Overwatering should be avoided in [snake plants](#), especially if it is kept inside of a cafe or restaurant.

LIGHT

Snake plants can do well even in the low light of cafe interior space. But appreciate the medium indirect light for proper growth.

There are different varieties of [snake plants](#) available on our website [urban plants](#) .Buy it today to enhance the beauty of your cafe interior.
