*Mail on **October 7***

After decades of racial gerrymandering, Alabama voters won a court battle and, in 2023, new Congressional voting maps were created. With a 48.7% Black voting age population, the district was drawn to give Black voters the opportunity to select a candidate that will represent their priorities and values. LWV and NAACP are committed to ensuring that voters are empowered with the knowledge and tools that they need to make their voices heard at the ballot box.

Postcards can be written between now and September 30 and will be held to be mailed out on October 7.
