Dec 1 2012, 11:03 AM

[ericcurts](#): Thanks to everyone for joining us!

Dec 1 2012, 11:05 AM

[rocketrob](#): I like how you've set up Chatroll with the embedded video. Maybe sometime you could give some instruction on setting this all up?

Dec 1 2012, 11:06 AM

[rocketrob](#): troglodytes, I suppose...LOL

Dec 1 2012, 11:09 AM

**MatthewP** (guest): Yep, I'm here

Dec 1 2012, 11:09 AM

[rocketrob](#): "we love technology..we love technology...that's my mantra

Dec 1 2012, 11:14 AM

**MatthewP** (guest): Google+ = deeper converstaions, richer content

Dec 1 2012, 11:14 AM

[SeanBeavers](#): right on matthew

Dec 1 2012, 11:14 AM

**MatthewP** (guest): Facebook = updates/lifestyle - short engagement

Dec 1 2012, 11:16 AM

**Isle\_Of\_Man** (guest): Hi the from Isle of Man .. where is the link to get into the Google hangout .... ready to go here.

Dec 1 2012, 11:16 AM

**MatthewP** (guest): Isle\_Of\_Man - you should be able to play the embedded video above this chat

Dec 1 2012, 11:17 AM

**Isle\_Of\_Man** (guest): Yeah, but I wana chat for real.

Dec 1 2012, 11:17 AM

**SeanBeavers**: Usually, the only people who are hosts or guests are invited to the actual live hangout

Dec 1 2012, 11:17 AM

**mrgrifftastic**: May need to hit refresh if it isn't loading for you

Dec 1 2012, 11:17 AM

**Isle\_Of\_Man** (guest): crap themn.. freedom denying protocol you are using , bye.

Dec 1 2012, 11:17 AM

**MatthewP** (guest): split between admin / instruction

Dec 1 2012, 11:17 AM

**mrgrifftastic**: Accept when Sean BLOCKS THEM! ☐

Dec 1 2012, 11:18 AM

**rocketrob**: what about Pages?

Dec 1 2012, 11:18 AM

**SeanBeavers**: rocketrob, how do you see using pages, for your classroom? school?

Dec 1 2012, 11:19 AM

**rocketrob**: I'm not understanding how pages work at this point. That was my question

Dec 1 2012, 11:19 AM

**MatthewP** (guest): Henry Thiele created this handy video on how to use HangoutsOnAir to create a screencast/recording for flipping videos:

Dec 1 2012, 11:19 AM

**MatthewP** (guest): <http://youtu.be/wQhuq1I7QIE>

[Creating a Demo Using Google Plus - YouTube](#)

Dec 1 2012, 11:19 AM

**SeanBeavers**: Thanks for the link

Dec 1 2012, 11:20 AM

**rocketrob**: are there any limitation for how long OnAir recordings be?

Dec 1 2012, 11:21 AM

**mrgrifftastic**: Nope

Dec 1 2012, 11:21 AM

**MatthewP** (guest): Is there a participant or time limit in hangouts?

Hangouts are limited to 10 video conference participants, with no time limit. You can also use Hangouts On Air to broadcast a hangout to many more people, though there is still a limit of 10 active participants.

Dec 1 2012, 11:21 AM

**MatthewP (guest):** However, I think there IS a limit on YouTube video lengths until you 'verify' your YouTube account

Dec 1 2012, 11:21 AM

**mrgriffastic:** YouTube has a 10 hour limit if you record it and up load it to

Dec 1 2012, 11:22 AM

**MatthewP (guest):** Good to know, thanks Griff

Dec 1 2012, 11:22 AM

**MatthewP (guest):** By default, you can upload videos that are 15 minutes long. To upload longer videos, follow these steps:

Visit the upload page at [www.youtube.com/my\\_videos\\_upload](http://www.youtube.com/my_videos_upload)

Click Increase your limit at the bottom of the page

Follow the steps to verify your account with a mobile phone. Currently we aren't able to offer other ways to verify your account.

Dec 1 2012, 11:24 AM

**MatthewP (guest):** small group management via circles

Dec 1 2012, 11:24 AM

**MatthewP (guest):** great idea!

Dec 1 2012, 11:24 AM

**MatthewP (guest):** +1 - shared circles!

Dec 1 2012, 11:25 AM

**MatthewP (guest):** circles could be shared with all teachers in a school

Dec 1 2012, 11:25 AM

**MatthewP (guest):** \*challenging your definition of 'blended' learning there, BUT - for sure DISTANCE learning and providing external content to students within your school

Dec 1 2012, 11:25 AM

**Dianew (guest):** Yes, I am going to attempt this in place of my paid subscription of Blackboard Collaborate.

Dec 1 2012, 11:26 AM

**rocketrob:** circle are specific to user, though, how do you suggest a group be shared easily across a staff (like a group)?

Dec 1 2012, 11:26 AM

**MatthewP (guest):** foreign language classes, higher level math classes being provided from other schools into your school via hangouts

Dec 1 2012, 11:26 AM

**MatthewP (guest):** or to MANY schools (e.g. having master math or language teacher at one school streaming class to unlimited other schools/classrooms

Dec 1 2012, 11:26 AM

**SeanBeavers**: You can share circles through a post

Dec 1 2012, 11:27 AM

**rocketrob**: Snow day...Ha we don't get those in Montana. Just cowboy up! and get to school

Dec 1 2012, 11:27 AM

**MatthewP (guest)**: yes for sure, don't want to hijack conversation into defining blended learning - sorry!

Dec 1 2012, 11:27 AM

**MatthewP (guest)**: tutoring session between students across different schools / classrooms

Dec 1 2012, 11:29 AM

**MatthewP (guest)**: Better link to sharing circles in

G+ <http://www.christopherspenn.com/2011/09/how-to-share-circles-on-google/>

[How to Share Circles on Google+ - Christopher S. Penn : Awaken Your Superhero](#)

Dec 1 2012, 11:29 AM

**Dianew (guest)**: Guy Kawasaki's "What the Plus!" Does a great Job on "circles" and Sharing. .99 in the Kindle Store.

Dec 1 2012, 11:30 AM

**rocketrob**: circle share, that's good to know. We're looking to do a shared group/now possible circle for conversation on Common Core

Dec 1 2012, 11:31 AM

**MatthewP (guest)**: Administration use: Hangouts great replacement for WebEx/GoToMeeting to reduce travel time

Dec 1 2012, 11:32 AM

**KyleS (guest)**: Can Google+ essentially replace Google Groups?

Dec 1 2012, 11:33 AM

**MatthewP (guest)**: In-school family meetings: We don't have rooms big enough to hold all students families, so we send families into classrooms, have teachers join a hangout and the principal can present to everyone.

Dec 1 2012, 11:33 AM

**rocketrob**: yes, Kyle, good question. How does circles replace, supplement groups (which, btw, has just added tons of new features)

Dec 1 2012, 11:33 AM

**MatthewP (guest)**: KyleS - there is chatter about how Circles and Groups will work together, but I don't think circles will replace organizational groups.

Dec 1 2012, 11:34 AM

**Dianew (guest)**: Community extension? Hangout for Christmas Concert to stream into Assisted Living, Homes or parents in the military?

Dec 1 2012, 11:34 AM

**MatthewP (guest):** Dianew- AWESOME idea!

Dec 1 2012, 11:35 AM

**rocketrob:** another consideration on instant upload with students, would be inappropriate use (ex. bathroom shots.typical MS student stuff)

Dec 1 2012, 11:35 AM

**SeanBeavers:** Interesting idea, streaming performances for those who cannot make it to the actual event, and then you have a recording you can provide

Dec 1 2012, 11:35 AM

**SeanBeavers:** It could be concerts, board meetings, PTA meetings etc

Dec 1 2012, 11:35 AM

**rocketrob:** HangOut OnAir for school board meetings

Dec 1 2012, 11:35 AM

**Dianew (guest):** Good point RocketRob!

Dec 1 2012, 11:35 AM

**MatthewP (guest):** can I run a hangout-on-air from my iPhone/android device?

Dec 1 2012, 11:36 AM

**mrgriffastic:** Need to find a way for the school to charge for it ☐ Maybe have someone sponsor it and use the lower third to advertise

Dec 1 2012, 11:36 AM

**SeanBeavers:** Matthew, you can start a hangout, but not sure if you can initiate a hangout on air from your mobile device

Dec 1 2012, 11:36 AM

**Dianew (guest):** I also like the idea of bringing in an expert to a meeting, in rural Montana this would be so helpful!

Dec 1 2012, 11:36 AM

**MatthewP (guest):** relating to recording events out in the field - on the fly

Dec 1 2012, 11:37 AM

**KyleS (guest):** How can you tie in Google+ for K12 to your Google+ Page for your school?

Dec 1 2012, 11:38 AM

**MatthewP (guest):** Board stuff - there a rules about board members physically needing to be in the same location (though this is a great idea)

Dec 1 2012, 11:38 AM

**MatthewP (guest):** right

Dec 1 2012, 11:38 AM

**MatthewP (guest):** start hangout on air from desktop

Dec 1 2012, 11:38 AM

**MatthewP (guest):** join from device

Dec 1 2012, 11:38 AM

**MatthewP (guest):** then use the video-director to select the device feed

Dec 1 2012, 11:39 AM

**MatthewP (guest):** Sean, this is a great segue into one of our biggest challenges we are seeing in rolling G+ our to staff...

Dec 1 2012, 11:40 AM

**Dianew (guest):** Love it!

Dec 1 2012, 11:40 AM

**MatthewP (guest):** great idea

Dec 1 2012, 11:41 AM

**SeanBeavers:** Matthew, are you talking about developing a PLN?

Dec 1 2012, 11:41 AM

**JohnKrouskoff1 (guest):** Hi gang!

Dec 1 2012, 11:41 AM

**MatthewP (guest):** Challenge is this:

Dec 1 2012, 11:41 AM

**MatthewP (guest):** setting up G+ in an EDU domain, encouraging use of G+ to develop PLN

Dec 1 2012, 11:41 AM

**MatthewP (guest):** then when user leaves org, the lose access to that EDU based G+ account

Dec 1 2012, 11:42 AM

**MatthewP (guest):** so we are stuck rolling out G+ and encourage the use of Hangouts, but for PLN development and social networking we recommend that staff create a personal G+account

Dec 1 2012, 11:42 AM

**rocketrob:** not sure if G+ account can be transferred like other parts of EDU accounts (sites, docs, etc)

Dec 1 2012, 11:42 AM

**SeanBeavers:** Hey John! You made it

Dec 1 2012, 11:43 AM

**MatthewP (guest):** and only use the internal organizational G+account for collaborating w/internal users

Dec 1 2012, 11:43 AM

**JohnKrouskoff1 (guest):** Yes. Just got here.

Dec 1 2012, 11:43 AM

**SeanBeavers**: What happens if you merge your GAFE Google+account with your personal one? Would you still keep your profile if you left your current position?

Dec 1 2012, 11:44 AM

**MatthewP (guest)**: They are saying that G+ content will be available in Takeout to transfer to other accounts - but we can prevent staff from having to deal with that if they create and manage separated accounts from day 1

Dec 1 2012, 11:44 AM

**rocketrob**: Any suggestions on transitioning staff from traditional email, groups, to G+..?

Dec 1 2012, 11:44 AM

**MatthewP (guest)**: RocketRob - not a replacement for email or groups

Dec 1 2012, 11:44 AM

**MatthewP (guest)**: additive

Dec 1 2012, 11:44 AM

**JohnKrouskoff1 (guest)**: What happens to your online persona when you leave?

Dec 1 2012, 11:44 AM

**MatthewP (guest)**: At our domain, we suspend the account - the G+ profile disappears.

Dec 1 2012, 11:45 AM

**JohnKrouskoff1 (guest)**: Exactly.

Dec 1 2012, 11:45 AM

**MatthewP (guest)**: that's why I think it's important to encourage staff to use a personal G+ accounts for personal collaboration and PLN development

Dec 1 2012, 11:45 AM

**JohnKrouskoff1 (guest)**: So years of your persona go "poof"

Dec 1 2012, 11:45 AM

**MatthewP (guest)**: must be something that they own and keep with them wherever they go

Dec 1 2012, 11:45 AM

**SeanBeavers**: So for your PLN, use your personal, but for everything else school related use your professional profile

Dec 1 2012, 11:45 AM

**JohnKrouskoff1 (guest)**: Yes, but if they use their personal account, there become challenges too.

Dec 1 2012, 11:46 AM

**MatthewP (guest)**: and then we try to provide guidance on how to manage both profiles

Dec 1 2012, 11:46 AM

**JohnKrouskoff1** (guest): Yes Sean, but there's a lot that crosses both.

Dec 1 2012, 11:46 AM

**rocketrob**: Cloud Lock..Costs?

Dec 1 2012, 11:46 AM

**SeanBeavers**: I would love if Google would allow you to start a hangout from your school's Google+ page, or in our case our podcast page

Dec 1 2012, 11:46 AM

**MatthewP** (guest): e.g. adding a profile and banner picture on the organizational account that clearly identifies that account with the organization

Dec 1 2012, 11:47 AM

**mrgriffastic**: it is per person, not sure, but it isn't very expensive

Dec 1 2012, 11:47 AM

**MatthewP** (guest): We are NOT turning it for kids until we can build a wall

Dec 1 2012, 11:47 AM

**JohnKrouskoff1** (guest): Great idea matt. Also keeps it clear for people searching you.

Dec 1 2012, 11:47 AM

**rocketrob**: Matthew - Yes, that would be great

Dec 1 2012, 11:47 AM

**mrgriffastic**: I have 800 accounts, and I think that I pay less that \$1000

Dec 1 2012, 11:47 AM

**MatthewP** (guest): We dont' have high schools, but if we did I would consider rolling for high schools

Dec 1 2012, 11:48 AM

**JohnKrouskoff1** (guest): Do you turn blogger on for students? It's "below the line" and not covered by Google's agreement with schools

Dec 1 2012, 11:48 AM

**SeanBeavers**: Good point John

Dec 1 2012, 11:49 AM

**SeanBeavers**: Admins cannot control whether Blogger posts are shared outside your domain

Dec 1 2012, 11:49 AM

**MatthewP** (guest): @KIPP LA we do NOT enable blogger for students, but we do enable sites for MS students for e-portfolios

Dec 1 2012, 11:49 AM

**MatthewP** (guest): I'm unclear as to why you would want a separate organizational account just for use w/G+?

Dec 1 2012, 11:49 AM

**JohnKrouskoff1** (guest): We use a hosted domain for blogs (blogs.ccsd.edu/jkrouskoff, blogs.ccsd.edu/alerts). Students and teachers use. We use edublogs.

Dec 1 2012, 11:51 AM

**JohnKrouskoff1** (guest): Oooh. I like the pages idea!

Dec 1 2012, 11:51 AM

**rocketrob**: Yes, I've got multi identity issues with personal vs.work

Dec 1 2012, 11:51 AM

**MatthewP** (guest): One personal account, one work account

Dec 1 2012, 11:51 AM

**MatthewP** (guest): I think it's a new standard as more and more orgs and schools go to GApps

Dec 1 2012, 11:51 AM

**JohnKrouskoff1** (guest): I do what matthew says

Dec 1 2012, 11:51 AM

**rocketrob**: my school account is MrRob Reynolds vs personal Rob Reynolds aka rocketrob

Dec 1 2012, 11:52 AM

**MatthewP** (guest): it's what we should be training our students and teachers as part of our curriculum for 21st century skills

Dec 1 2012, 11:52 AM

**MatthewP** (guest): managing personal vs. professional (school/work) accounts

Dec 1 2012, 11:52 AM

**JohnKrouskoff1** (guest): Rob, I like that and plan to do that to my professional side

Dec 1 2012, 11:52 AM

**SeanBeavers**: <http://mashable.com/2012/07/12/google-merge-accounts/>

Dec 1 2012, 11:52 AM

**SeanBeavers**: How to merge your personal and work profiles

Dec 1 2012, 11:53 AM

**rocketrob**: don't see that they offer "merge" at this point

Dec 1 2012, 11:53 AM

**MatthewP** (guest): Sean - interesting, I haven't seen that

Dec 1 2012, 11:53 AM

**SeanBeavers**: I started to merge mine, but it disables posting for 10 days I believe from both accounts

Dec 1 2012, 11:53 AM

**MatthewP** (guest): so you would want to make your 'personal'account the primary account - similar to how we currently link GApps accounts

Dec 1 2012, 11:54 AM

**SeanBeavers**: right, because it can be confusing when people add you to a circle in both places

Dec 1 2012, 11:54 AM

**JohnKrouskoff1** (guest): I'll need to read that later. Looks interesting, but I don;t know that I WANT to merge them.

Dec 1 2012, 11:55 AM

**MatthewP** (guest): yeah, it looks scary - and not quite a 'merge'of accounts, just a one time transfer of content from one to another

Dec 1 2012, 11:55 AM

**MatthewP** (guest): good for when an employee leaves and wants to trx org content to personal G+ account

Dec 1 2012, 11:56 AM

**JohnKrouskoff1** (guest): Perhaps we ask Google to clarify. They've been great partners so far, so I'm not too afraid of their plans.

Dec 1 2012, 11:56 AM

**MatthewP** (guest): +Google Voice

Dec 1 2012, 11:56 AM

**SeanBeavers**: I'll add the link to the show notes

Dec 1 2012, 11:56 AM

**JohnKrouskoff1** (guest): Postini email archive is the only thing I pay for with GAPSS

Dec 1 2012, 11:56 AM

**JohnKrouskoff1** (guest): GAFE

Dec 1 2012, 11:57 AM

**JohnKrouskoff1** (guest): Good questions to send in an email to Jaime Casap

Dec 1 2012, 11:57 AM

**MatthewP** (guest): agreed - Google is strong edu partner

Dec 1 2012, 11:57 AM

**JohnKrouskoff1** (guest): If they "do evil" there are other products to use. They are proven partners with us (educators)

Dec 1 2012, 11:58 AM

**MatthewP** (guest): ditto

Dec 1 2012, 11:58 AM

**MatthewP** (guest): Technicals:

Dec 1 2012, 11:58 AM

**JohnKrouskoff1** (guest): We've rolled to our teacher side, but not our student domain

Dec 1 2012, 11:58 AM

**MatthewP** (guest): how to turn it on?

Dec 1 2012, 11:58 AM

**JohnKrouskoff1** (guest): Admin panel

Dec 1 2012, 11:59 AM

**MatthewP** (guest): ~actually, when you turn it on - it turns it on for ALL your OUs, and you need to go and immediately turn it OFF for the top-level org and then turn it on only for the OUs you want

Dec 1 2012, 11:59 AM

**JohnKrouskoff1** (guest): We turned it on for more than 1,000 adults

Dec 1 2012, 11:59 AM

**MatthewP** (guest): We created a G+ rollout OU and are moving specific staff pilot groups into that group.

Dec 1 2012, 11:59 AM

**JohnKrouskoff1** (guest): I like that idea Matt.

Dec 1 2012, 11:59 AM

**MatthewP** (guest): First group - executives and key regional stakeholders (principals, CAO, etc.)

Dec 1 2012, 11:59 AM

[SeanBeavers](#): I assume, the staff members who are your catalysts for change Matthew

Dec 1 2012, 12:00 PM

**MatthewP** (guest): 1-week later - operations staff (administrators/receptionists/deans/etc.)

Dec 1 2012, 12:00 PM

**MatthewP** (guest): 12/14 - we plan to enable for our entire 'Staff'OU

Dec 1 2012, 12:00 PM

**MatthewP** (guest): Wanted to start with people who would immediately benefit from Hangouts

Dec 1 2012, 12:00 PM

[rocketrob](#): we turned on for all staff, but agree with no student for now

Dec 1 2012, 12:01 PM

**MatthewP** (guest): no plans to roll for students w/o being able to wall them in

Dec 1 2012, 12:01 PM

[SeanBeavers](#): You need the same granularity of control found in Docs for Google+

Dec 1 2012, 12:01 PM

**MatthewP** (guest): exactly - sub-org under our main Staff OU

Dec 1 2012, 12:01 PM

**JohnKrouskoff1** (guest): Isn't it confusing to roll to some and not others?

Dec 1 2012, 12:01 PM

**JohnKrouskoff1** (guest): To the user?

Dec 1 2012, 12:02 PM

**MatthewP** (guest): nope - only change for the users is that once it is enable for your account you see the '+you' link on the google-bar

Dec 1 2012, 12:02 PM

**MatthewP** (guest): staff who don't get it have no idea that others are getting it aside from hearsay

Dec 1 2012, 12:02 PM

[rocketrob](#): I see no problem with rolling out to all teachers. Let them play and give feedback. Those who aren't interested, won't even go there

Dec 1 2012, 12:02 PM

**JohnKrouskoff1** (guest): Those who play might cause trouble for themselves...

Dec 1 2012, 12:02 PM

**MatthewP** (guest): For teachers/ we're trying to provide specific use-cases when we roll out.

Dec 1 2012, 12:02 PM

**JohnKrouskoff1** (guest): and ultimately for us.

Dec 1 2012, 12:03 PM

**MatthewP** (guest): e.g. hangouts for planning sessions between teachers while being able to stay in your classroom

Dec 1 2012, 12:03 PM

**JohnKrouskoff1** (guest): We asked that those who have not been using it on the personal side to wait for PD

Dec 1 2012, 12:03 PM

**JohnKrouskoff1** (guest): Principals (16 in total) will love this when we roll to them with PD.

Dec 1 2012, 12:03 PM

**MatthewP** (guest): We are starting with encouraging Hangouts use and playing with G+, but aren't doing deep G+ PD as part of the rollout

Dec 1 2012, 12:03 PM

[rocketrob](#): Matthew. yes, good idea

Dec 1 2012, 12:04 PM

**JohnKrouskoff1** (guest): Is mastery necessary?

Dec 1 2012, 12:04 PM

[rocketrob](#): John, don't think so, myself

Dec 1 2012, 12:04 PM

**JohnKrouskoff1** (guest): They can use to their level and grow.

Dec 1 2012, 12:04 PM

[Matthew White](#): lost video

Dec 1 2012, 12:04 PM

[rocketrob](#): it's not an "exclusive" group

Dec 1 2012, 12:04 PM

**MatthewP** (guest): MW - try refreshing the page

Dec 1 2012, 12:04 PM

**JohnKrouskoff1** (guest): It's still up

Dec 1 2012, 12:04 PM

[mrgriffastic](#): hit refresh

Dec 1 2012, 12:05 PM

[Matthew White](#): worked

Dec 1 2012, 12:05 PM

[mrgriffastic](#): Did you loose the video when I was talking Matt?

Dec 1 2012, 12:05 PM

**JohnKrouskoff1** (guest): Sharing only in the domain for teachers would hinder PLN's

Dec 1 2012, 12:05 PM

**MatthewP** (guest): I think it's going to be a great way to get teachers started with PLNs that haven't already gotten into Twitter/Facebook/etc.

Dec 1 2012, 12:05 PM

**Dianew** (guest): Thanks so much for the wonderful discussion!

Dec 1 2012, 12:05 PM

**JohnKrouskoff1** (guest): RAPID time

Dec 1 2012, 12:06 PM

[SeanBeavers](#): Well, if you could manage sharing for each OU, for example teachers would have the ability to share outside the domain, but students would be restricted to the domain

Dec 1 2012, 12:06 PM

**Teresa** (guest): Thanks so much!

Dec 1 2012, 12:06 PM

[SeanBeavers](#): Definitely stick around for our awesome thing of the week

Dec 1 2012, 12:06 PM

[SeanBeavers](#): We have some good technology tips and tricks to share

Dec 1 2012, 12:06 PM

[rocketrob](#): I'd like to see a follow up on using G+ pages next time
