

Rectangles Everywhere TEXT

Created by Amy Shepherd, M.Ed.

This is a rectangle.
Rectangles have 4 sides.
They have two short sides,
two long sides
and four corners.

Rectangles are shapes that are hiding in plain sight all around us! Let's find some together!

Find the rectangle.

Find the rectangle.

Rectangles here, rectangles there. Rectangles, rectangles everywhere!

Look...

I see something that is shaped like a rectangle. It has a knob to turn and hinges to swing open and closed.

What is it? It's a door.

Rectangles here, rectangles there. Rectangles, rectangles everywhere!

Look...

I see something that is shaped like a rectangle. It is a container with a handle on top.

What is it? It's a lunchbox.

Rectangles here, rectangles there. Rectangles, rectangles everywhere!

Look...

I see something that is shaped like a rectangle. It has a cover, pages and a spine.

What is it? It's a book.

Rectangles here, rectangles there. Rectangles, rectangles everywhere!

Look...

I see something that is shaped like a rectangle. It has a a basin, wheels and a handle.

What is it? It's a wagon.

Rectangles here, rectangles there. Rectangles, rectangles everywhere!

Look...

I see something that is shaped like a rectangle. It is yellow and has a row of windows on the side and wheels.

What is it? It's a school bus.
