Applicat ion Deadlin e (subject to change)	Eligibility (current grade level)	Program Name	Program Description	Location	Contact Information & Application Link
January 17, 2025	Sophomores	Bank of America Student Leaders Program	Community-minded high schoolers get first-hand experience in serving their communities through a paid eight-week internship with nonprofits like Boys and Girls Clubs of America and Habitat for Humanity. They also get to see how nonprofits, governments and businesses collaborate to meet local needs by participating in the national Student Leaders Summit in Washington, D.C. Many of the students use their new-found skills to create more change and improve more lives, with inspiring stories of enthusiasm and commitment. Program runs throughout the summers (dates vary).	Varies (usually charity within 25 miles for commuter portion) / Washington, DC at the Hyatt Regency Crystal City (1 week residential)	Link: https://www.cybergrants.com/pls/cybergrants/ao_login.login?x_gm_id=1499&x_proposal_type_id=995

Rolling	All high school students 15-18 years old (Sophomores)	US State Departmen t Youth Ambassado r Program	The Youth Ambassadors Program is a free exchange program that brings together high school students and adult mentors from countries across the Americas to promote mutual understanding, increase leadership skills, and prepare youth to make a difference in their communities. Exchanges are primarily from Latin America and the Caribbean to the United States, but also include delegations from the United States to select countries. Participants will engage in workshops, community service activities, team building exercises, meetings with community leaders and Congress, and live with local host families for four weeks. Upon their return home, the students apply what they have learned to implement projects that serve needs in their communities. March 31st, 2025	All high schoolers (Need to have completed a course in physics; exceptiona l	Rutgers University QuarkNet Program	High school students can participate in the 11th Annual Summer Workshop on Particle Physics and Cosmology. In this program, students will learn about the currently most important open questions in fundamental physics. Students will gain first-hand knowledge of research in	New Brunswick, NJ (commuter)	Link: https://www.physics.rutgers.edu/~steves/ Rutgers_summer_program/Application_ Form_2023.pdf

	Sophomor es)		elementary particle physics by analyzing real data from the Large Hadron Collider at the CERN laboratory in Switzerland using event displays and the analysis tools used by research physicists. In addition, students will get hands-on experience at collecting cosmic ray data and designing and carrying out their own cosmic ray experiments using cosmic-ray particle detectors. Students will also participate in sessions on cosmology and quantum computing. At the conclusion of the program, participating students will be expected to work with a group of fellow students to prepare a presentation on a research topic of their choice. The program is free and commuter based, which is realistic for students in South Jersey.		
October 9th, 2025	All high schoolers (prefer experience in journalism/ creative writing)	KYW Newstudies Program 2024	KYW Newsradio has given high school students the opportunity to learn about the inner workings of a major market radio station with the Newstudies student reporter program. Over the course of four Saturdays, students will learn reporting, news writing, editing,	Temple University Campus, Philadelphia PA (commuter)	Link: https://www.audacy.com/kywnewsradio/kyw-newstudies-2023-application-page

			ethics and interviewing skills from KYW Newsradio managers, editors and reporters. At the end of the Newstudies program there will be a graduation ceremony. To graduate from the program, students must research, write and record a news report about something in their school or community. The student's report will air on KYW Newsradio and a digital version of the report will be posted online. This is a free, commuter based program.		
March 10, 2025 (Follow ed by intervie w notificat ion by April 10, 2025)	Sophomores	The Metropolit an Museum of Art Summer High School Internship	The Met High School Internship Program offers paid opportunities for students who attend a high school or home school in New York, New Jersey, or Connecticut. This program allows students to connect with art, museums, and creative professionals as they develop professional skills, network, and gain work experience. This internship experience is not limited to young people who have a passion for art! The High School Internship Program allows you to connect one-on-one and in small cohorts with Museum professionals in a	Manhattan, NYC/Virtual	Email: highschoolinterns@metmuseum.org Links: https://www.metmuseum.org/about-the- met/internships/high-school/summer-hig h-school-internships https://webportalapp.com/sp/login/2po7y n3510

			number of related fields, including editorial, marketing, social media, education, scientific research, conservation, and more. During your time at The Met, you have the chance to find the intersection of your interests as you gain insights from peers and professionals. Students who are members of groups that are historically underrepresented in these fields are strongly encouraged to apply. Upon completion of the program, High School Interns receive a stipend commensurate with New York State minimum wage law, although transportation and/or living spaces are not provided.		
Varied Dates (by April 2025 at latest)	High School Students over 15 years of age (Sophomor es) Note:	Sandia National Laboratorie s Student Internship Program	Each year, Sandia welcomes students from around the country—from those in their final years of high school to researchers obtaining PhDs—to work in a variety of technical and business positions. Interns work on real-world, challenging projects to contribute to critical national goals. Many of these research	Alberquerqu e, NM	Links: https://www.sandia.gov/careers/career-possibilities/students-and-postdocs/internships-co-ops/ https://cg.sandia.gov/psc/applicant/EMPLOYEE/HRMS/c/HRS_HRAM_FL.HRS_CG_SEARCH_FL.GBL?FOCUS=Applicant&FOCUS=Applicant&FoderPath=PORTAL_ROOT_OBJECT.H

Further requires 3.0/4.0 GPA and U.S. Citizenship	internships can be experienced through technical institutes that encompass a range of disciplines, including cyber security, energy surety, engineering design, and software development. Each institute provides a team to guide and mentor interns in projects aligned with their major or area of particular technical interest. There are internships in Business, Research and Development,	C_HRS_CE_GBL2&IsFolder=false &IgnoreParamTempl=FolderPath,Is Folder?&
	Technical Engineering, and Clerical Work. Summer internships typically run 10-12 weeks, generally from May to the last Thursday in August. Summer interns may work up to 40 hours per week. Students are paid between \$16.20 and \$19.00 per hour, and must find living spaces in New Mexico or California for the duration of the program. Internships provide students: Opportunities to work on challenging projects at competitive pay; Academic credits	
	for some co-op and other internships; Research mentoring from top scientists and engineers; Training and practical work experience using state-of-the-art	

			equipment and instruments.		
May 1, 2025 (encoura ged to apply as early as possible)	Sophomor e (B average or higher, commitme nt to live on campus, very strong interest in business)	The Summer Entreprene urship and Business Academy (SEBA) at Stockton University School of Business	SEBA at Stockton University School of Business is designed to provide a unique platform for area high school students to appreciate and learn about the basics of entrepreneurship and business. This is a unique and exceptional learning opportunity, with topics that include: accounting, business analytics, computer information systems, computer science, finance, management, marketing and hospitality. There will be a Business plan competition judged by faculty, advisory board members and community leaders. Acceptance includes one week of programming, housing, meals and field trips, and there is no cost to attend. The Program will run from July 14-20, 2024.	Atlantic City, NJ (residential)	Email: tara.marsh@stockton.edu Link: https://stockton.qualtrics.com/jfe/form/S V_bJjbklgIkKFvY0d https://stockton.qualtrics.com/jfe/form/S V_bJjbklgIkKFvY0d
Opens March 1st, 2025 (unclear deadline date)	Sophomor es	Think Like an Entreprene ur Summer Academy at Rowan University	The Think Like an Entrepreneur Summer Academy (TLAE) is a non-residential, educational experience. Participants earn 3 college credits equivalent to one college course of credit which can	Glassboro, NJ (residential)	Email: wolk@rowan.edu Link: https://ent.rowan.edu/communityprogra ms/tlae.html

be used at Rowan or transferred for credit to another university. Led by Dr. Michael Dominik, Professor Greg Payton and RCIE Assistant Director Jessica Vattima, the program teaches the entrepreneurial mindset by introducing students to unique and interesting problems facing entrepreneurs in starting and operating new ventures. Students are broken into teams at the start of the program and tasked with finding a solution to one of the United Nations Sustainable Development Goals. Each day focuses on various topics including problem solving, customer discovery and engagement, design thinking, the Business Model Canvas, prototyping, financial analysis and resources, storytelling, and pitching. The Academy concludes with pitch presentations where teams present their idea to a panel of industry leading judges. The Academy typically spans eight-days. Thanks to the generous support of the TD Charitable Foundation, participation in the academy is

			free of charge.		
Vary: between Februar y 1 and	Sophomor es (U.S. Citizenship , 3.0 minimum GPA)`	United States Senate Page Program	The United States Senate Page Program introduces students from diverse backgrounds to many interesting and challenging experiences in the nation's capital. Living away from home with students from across the country allows pages to experience a myriad of new ideas and perspectives as well as develop skills in communication and compromise. Pages learn the value of public service while meeting some of our nation's most prominent leaders and witnessing firsthand the political debates of the United States Senate. Pages play an important role in the daily operation of the Senate, delivering correspondence and legislative material within the Capitol and Senate office buildings, preparing the Chamber for Senate sessions, and working on the Senate floor where they provide assistance during roll call votes, support senators and staff during debates, and carry bills and amendments to	Washington DC (residential)	Links: Senator Coons (DE): https://www.coons.senate.gov/services/u s-senate-page-program Senator Warner (VA): https://www.warner.senate.gov/public/in dex.cfm/senate-page-program-informatio n Senator Sanders (VT): https://www.sanders.senate.gov/senatepa geprogram/ Senator Schumer (NY): https://www.schumer.senate.gov/services /students/page-program

	the desk. Pages must be sponsored by a senator. There are 30 page positions that serve the 100 members of the United States Senate; therefore, not all senators are able to appoint pages. Students who wish to apply for a Senate page position and meet the eligibility requirements should write to their senators and request to be considered for a position. Senators' offices may provide additional information on their application requirements. Since pages serve for less than a year, they do not earn an entire annual salary, but make a salary of \$35,000. There are 2 summer sessions, which each run for 1 month. While no Senator from NJ currently sponsors Pages, there are several senators who will potentially sponsor an out of state student.

April 26th, 2025	Freshma n, Sophom ores	Senator Cory Booker Internship	There is a High School Accelerated Session for high school students in the Newark and Camden Offices. The High School Accelerated Session will be 14 consecutive business days in August. This Session runs from Monday, August 12 to Thursday, August 29, 2024. Interns in the Camden and Newark office assist our state team with a broad range of constituent-focused tasks. In addition to general office duties, such as answering phones and processing incoming mail and email, interns will also accompany staff to local community events, draft memos for various events, track constituent opinions on certain issues, and conduct research.	Camden, NJ (commuter)	Application Link: https://oampublic.senate.gov/constituent /login/2fbb75ad-4010-4678-a2bc-45c03 bd7532d/ Email: Internship@booker.senate.gov
First Come, First Serve (As soon as possib le)	Freshma n, Sophom ore	Rutgers Young Scholars Program in Discrete Mathematics	The Rutgers Young Scholars Program in Discrete Mathematics is a summer program for mathematically talented high school students. Students participate in an intensive four-week residential academic program that provides a challenging introduction to discrete mathematics a growing	Piscataway, NJ (commuter)	Email: rysp@math.rutgers.edu Application Link: https://math.rutgers.edu/academics/outre ach-activities/1716-outreach-activities-2

area of the mathematical sciences with many applications on the cutting edge of modern research. During the program, you will develop and enhance your problem-solving abilities by applying mathematical concepts to a wide range of problems. You will also meet distinguished professionals in the field of discrete mathematics who will serve as role models and mentors and help you decide if mathematics is the right field for you. Teaching assistants who are embarking on their own careers in mathematics will provide additional academic support. The program is held on the Busch campus of Rutgers University. Students are housed in a modern, air-conditioned residence hall. Residence life staff members coordinate the residence program and recreational activities. The cost of the program for 2024 will be \$4,500; that includes tuition, materials, housing, and meals from Monday lunch though Friday lunch each week. Students return home each weekend. A limited number of scholarships will be

			available for students in need. The program will run from July 8th to August 2nd.		
March 8th, 2025	Sophomores	Group Summer Scholars Research Program (Comp Sci) at Kean University	The GSSRP is a hands-on research experience aimed at attracting and developing talented students who are interested in pursuing an education in a STEM field. Participants work alongside faculty and staff on cutting-edge research projects in Scientific Computation, Cancer Biology, Machine Learning, Developmental Biology and Modern Drug Discovery. By the completion of the programs, participants gain valuable technical skills and research experience, learn to work as part of a research team, develop a true appreciation of the scientific research process, and contribute firsthand to the acquisition of new scientific knowledge. The 2024 program will also include additional programming with professional skills workshops, instrumentation demos, and a focus on college and career paths. The cost is \$1950 for the 4 week session and \$950 for the two week	Union, NJ (commuter)	Email: gssrp@kean.edu Application Link: https://ku.col.qualtrics.com/jfe/form/SV _3e139WnF9dvyvsi

			session. The 4 week session runs from July 8 to August 1, 2024, and the 2 week session runs from July 22 to August 1, 2024.		
March 8, 2025	Sophomores	The Met High School Internship Program	The Met High School Internship Program offers paid opportunities for students who are three years from graduating high school (in grades 10 and 11) and attend a high school or home school in New York, New Jersey, or Connecticut. Interns spend forty hours (10 to 20 hours per week) observing, assisting, and being mentored by a staff member in one of the Museum's departments. The placement is determined by the intern's interests and the department's interests and the department's internship project. There will be 2 two-hour sessions with curators, educators, designers, conservators, and other staff who discuss their professional paths and roles at the Museum and lead workshops during which interns try out an element of their work. There will be one-hour biweekly sessions for interns to meet as a cohort, learn from each other's experiences, meet with mentors, and develop their career readiness	Manhattan, NYC, NY (commuter)	Email: highschoolinterns@metmuseum.org Application Link: https://webportalapp.com/sp/login/o93uzp0x5f

			skills. Finally, Interns develop an event to share the insights, experiences, and skills gained through their departmental placements with fellow interns and invited guests. It runs fromJune 22 to August 9th, and is free (you get paid!)		
Rollin g Basis (ASA P)	Freshma n, Sophom ores	Donald Norcross Summer Internship	The Camden and Cherry Hill offices are accepting interns for Summer 2024. In South Jersey, interns' responsibilities include but are not limited to: maintaining active constituent correspondence, attending in-district events, greeting constituents and visitors, assisting staff with research and special projects, and performing other administrative duties when assigned. As a result, interns learn about constituent services and the many other functions of a congressional office.	Camden NJ, Cherry Hill NJ	Email: carly.mcintyre@mail.house.gov Application: Email a resume, cover letter, and 2-3 references as one combined PDF to dalin.hackley@mail.house.gov with "District Summer Internship: Last Name" in the subject line.
March 15th, 2025	Freshma n and Sophom ores	Barnard College: Sustainable Food and the City	Barnard's 3-Week Sustainable Food and the City introduces students to the U.S food system, examining food production, distribution, consumption, and waste management through four key lenses: agriculture; health,	New York City, NYC (residential)	Application Link: https://connect.barnard.edu/apply/

			policy and justice; food systems and climate change; and soil health. Each week, students will explore farms all across the city and New York state to learn hands-on from farmers growing our food. The program will invite experts and professionals from each unit to guide student's learning experience. Students will take a deep dive into each of these units to imagine a food system that produces food in an ecologically mindful way while supporting our communities and the planet, while producing a final project. This program will run from Monday, July 22nd- Saturday, August 10th, 2024.		
April 1st, 2025	Freshma n, Sophom ores	Civic Innovation Academy	"The Civic Innovation Academy is a one-week, in-person experience designed for the most innovative young change-makers at Georgetown University. Over the course of a week, you'll join a cohort of 75 Civic Fellows from across the country, and meet face-to-face with legislators, organizers, CEOs, and academics to explore the diverse world of change. You'll use what you've	Washington, DC (residential)	Applications Link: https://www.civicsunplugged.org/acade my

			learned to work directly with staff from executive departments to brainstorm solutions to problems facing our nation. Previous Fellows have met with representatives from the departments of State, Treasury, Education, and The White House." This program is in person in Washington D.C. The program is free, including housing + meals. Accepted students cover their own travel costs, but financial aid is available. The program runs June 22-29 2024.		
June 14th, 2025	Freshma n and Sophom ores (Girls only)	Girls Who Code Summer Immersion Program	The summer immersion program holds virtual, live 2 week introductory and intermediate computer science courses, with a focus on game design. Participants learn the computer science skills they need to make an impact, gain invaluable insight into diverse tech careers, and connect with inspiring figures in the field. The program costs \$300 and runs from June 14th-June 28th.	Virtual	Application Link: https://girlswhocode.com/programs/sum mer-immersion-program
