

# Privacy Policy

I have created this app for ios users so that they can save their data at one place from where they can share with their friends or see at any time and anywhere privately and manage a collection of moments.

In this first build I have just give the option to user can save images in their private files, but in future user can save there pdf and text files also in there private drive and they can get the link while taping on uploaded file and share with anyone to see the image while using the shared link

This app is free of cost for Apple iPhone users.

My friends like it most so we decided to publish it in an apple store. People will love it.
