

Join our Team

Joining our team means being part of a diverse, committed, faith-filled, and passionate group of educators who are here to shape the future in the most beautiful and promising ways.

We Offer

- Health, flex-spending plan, retirement, and welfare benefits
- Competitive compensation, retention bonuses, and annual cost of living increases
- Career development and resources
- Paid time off: 10+ weeks for teachers; 6 weeks for administration

Who we are

Led by a team of professional and dedicated teachers, our academic program is challenging and engaging. We endeavor to present our students with the best possible academic opportunities. In addition to Religion, Language Arts, Social Studies, Math, and Science our curriculum features Physical Education, Spanish, Music, and Fine Arts. We've integrated Smartboards, laptops, and iPads into our repertoire of teaching tools, providing opportunities for individualized instruction from grades K through 8 thus allowing us to provide a 21st Century Catholic Education. Our investment in the latest technology is increasing the opportunities for student-driven projects and differentiated learning.

The excellence of our academic program is enhanced by the active participation of our families - our partners in education. This is an active and supportive community. Parent volunteers, school and parish-wide community-building events, and an Ambassador Program for new families that promotes trust and camaraderie within our community that allows us to educate students at the highest level.

As a Catholic school, we believe that the religious and spiritual development of the child is indispensable in attaining a genuine whole-child education. By teaching about the Catholic Faith, both Catholics and non-Catholics learn a common set of values, beliefs, and expectations.

We are a community of learners who proudly embrace all of the gifts God has given us, and work to encourage all members of our school community to *Come Forth, Every Day*.
