21st September, 2024

NAME: ACCENTURE INNOVATION CHALLENGE (HIRING) BOOTCAMP

SPEAKER: SHAKTI SINGH

DESCRIPTION: The Computer Engineering Student Society (CESS) and Codecell of Rajiv Gandhi Institute of Technology (RGIT) hosted an engaging and insightful Accenture Innovation Challenge Bootcamp on September 21st, 2024, conducted in an online format with strong participation. The event featured industry experts who provided valuable insights into the Accenture Innovation Challenge, focusing on the use of technologies like generative AI to solve real-world problems and create disruptive business models. Participants were guided through the process of idea development, team building, and presentation skills, while also receiving mentorship from Accenture leaders. The bootcamp offered a platform for students to clear doubts, interact with professionals, and gain practical knowledge on how to excel in the competition. Attendees left with enhanced problem-solving, collaboration, and pitching skills, as well as the opportunity to secure cash prizes, pre-placement offers, and valuable industry exposure.

OBJECTIVES: Accenture Innovation Challenge Bootcamp is to provide students from diverse academic backgrounds with an opportunity to engage in real-world problem-solving and showcase their innovative solutions, particularly through the use of cutting-edge technologies like generative AI. The bootcamp aims to foster creativity, teamwork, and leadership by guiding participants through the process of idea development, pitching, and collaboration. Additionally, it seeks to offer participants lucrative rewards such as cash prizes, mentorship from Accenture leaders, and fast-track hiring opportunities, including pre-placement offers (PPOs). By empowering students with valuable industry exposure, the event encourages them to develop impactful solutions, enhance their technical and soft skills, and potentially secure a career with Accenture.
