

## STEAM Kit Supply Drive

8<sup>th</sup> November 2021 to Present

### OVERVIEW

Due to educational inequity and the unequal distribution of resources, many students across the globe are deprived of access to hands-on learning in STEAM. To give students the chance to learn STEAM in a fun and interactive way that is often nonexistent in many classrooms, The Markerboard is distributing STEAM kits to elementary schools in the Los Angeles metropolitan area.

### GOAL

To ensure that every student gets the opportunity to unlock their full potential in science, technology, engineering, art, and mathematics through hands-on learning

### SPECIFICATIONS

The Markerboard contacts elementary schools across the United States with information on the STEAM Kit Supply Drive. Schools submit an order form through this email, and a given kit drop-off day is specified. One of The Markerboard's members will drop off a collection of STEAM kits requested in the order form.

## MILESTONES

### Kits Distributed to El Rincon Elementary

As of November 20th, 2021, The Markerboard has distributed a total of 17 STEAM kits to El Rincon Elementary School in the Culver City Unified School District.
