Contact with me:

You can write to me on **Twitter**. You can also write on Instagram or Blueskay. If it is more convenient for you, we can then communicate on **Discord**, so do not hesitate to offer it

I draw

Historical and fantasy setting, only humanoid characters (horns, tails, simple body modifications – OK)

Maybe: I almost don't draw in the setting of our modernity – I can do it, but I'm not sure how well it will come out in my style

I don’t draw

Sci-fi, robots, complex mechanisms, animals and anthro, NSFW, extreme kinks, scenes of brutal violence and similar things

Deadline

A **1 month**, but I usually draw faster (how quickly I draw art for you is influenced by the number of people in the queue in front of you, the complexity of the drawing and how quickly I get answers to the questions and stages of the drawing)

Payment

Lava.top (PayPal), **Easystart** (you can pay via PayPal or card there),**Hipolink** and **Boosty** (Paypal is temporarily out of service, but you can pay with a paypal virtual card)

Edits

1. I can make 6 free edits at the sketch stage, including completely redrawing the sketch
2. At the intermediate stage (this is usually a line+base color) I can make 4 free edits. At this stage, I can slightly move objects, arms-legs-head of the character and the like, correct the shape of the face-nose, change colors, etc.. There are no significant changes in composition, pose or angle
3. 3 free simple edits are available at the final stage. At this stage, I can change the colors, change small details or correct the shape of the face-nose, etc. of the character. Significant changes like moving the character's hand are impossible

For each further edit after the expiration of the free limit, there is an additional payment of 5 USD

Below are the main points that are important to me when I am working with a drawing. It will be great if you describe your idea to me in as much detail as possible on these points

It would be great if you would write me this in a message with a description of your order

1. What type of drawing do you want (sketch with color, full art with line, full art without line)
2. The character is head, up to half a thigh or below, or full-height
3. How many characters are in the picture
4. Visual references to the character (it is not necessary that it be a full-fledged reference, separate images of clothes, hairstyles, jewelry, and other important details of your character will be enough)
5. Visual references to the character's pose (optional, but it will be easier to work this way)
6. Suggestions about the character's emotions
7. Do you need a background, and if so, what kind of background it should be (also preferably with visual references)
8. Suggestions about the general atmosphere of the drawing

It would be great if you send as many visual references as possible, so I can better understand your idea and be able to do better what you want.
