## **Dubai's Climate Crossroads: Raising the Curtain on Developed Nations' Accountability and Civil Society's Urgent Call at COP28!**

As governments and the international climate community gather for the [United Nations Framework on Climate Change Conference Of Parties 28](#) it is clear there's no more room for fossil fuels on a living planet, no time for fake finances that do not deliver on the promises by the rich nations, and no place for unproven climate solutions that are dangerous distractions allowing polluters to continue as normal. This climate conference is coming at a pivotal moment when countries all around the world are coming together to assess their collective efforts and expectations under the Paris Agreement's first ever "Global Stocktake" (GST) to keep the world from breaching the global temperature rise by 1.5 degrees.

GST marks a crucial crossroads for holding all governments accountable, especially developed nations who are not doing their fair share of action or recognizing their historical responsibilities, as civil society ramps up pressure for urgent demands that governments deliver on their commitments. Join us as members of the [Global Campaign to Demand Climate Justice](#) spotlight this critical moment by dissecting pressing issues and raising imperative demands for global climate action at the COP28.

**When:** Friday, 1 December | 1:30pm (Dubai)

**Where:** Press Room 2, Zone B6, Building 77, [WATCH LIVE](#)
