WHATSAPP CLOSED GROUP

Here is a situational report to keep you abreast with goings-on with the MY SKILL BOOT CAMP to which you've been of major support and contributor.

The Emancipator's Boot Camp with the theme MY SKILL BOOT CAMP organized by the EMANCIPATOR INITIATIVE has achieved thus far.

The program, naturally divided into four sections by events, with First;

- the sensitization of the public by running of paid Facebook ads which spanned for a whole day and connecting with fellows in our age range target (13 - 30) which was invoked for 3 weeks (3 of April to 24th of April).

- Second session; a 3-day Boot Camp chaired by Apochi OBED where he addressed the public on an exclusive WhatsApp group with about 338 individuals. After which he hosted Miss Awesomeness Esuabana, a young millionaire, founder of IDGold foundation, and a serial volunteer who also runs/owns a virtual school called "School of Impact" with Mr. Isaiah Ibigbemi a 29-year-old Millionaire WhatsApp-preneur (his earnings from WhatsApp alone is over a million Naira per month) and an Upwork Lord (having taught over 800 persons how to earn in dollars with their skill) successively in a Facebook live session on EMANCIPATOR INITIATIVE FACEBOOK PAGE.

BREAKDOWN OF THE 3-DAY BOOT CAMP

DAY 1

On the 24th of April, 2021. Apochi Obed, the founder, and the host spoke extensively on the theme "From SKILLESS to SKILLFUL" where he enumerated what it takes for a man to grow from being without a skill to a point where he is highly sorted after in his chosen niche of skill. He also asked them to watch a prerecorded video on the Emancipators Initiative YouTube platform titled "Why you must succeed" with assignments accompanying.

These sessions were so packed and received accolades from all who were actively present, the replay however was made available for those who were unavoidably absent.

LAST PHASE

Currently, we are in the fourth face which is the "Skill acquisition" phase.

Here, experts in fields such as Copywriting, Content writing, Graphics design, Website design, SEO Optimization, and Content marketing with evidence of current earnings have been recruited to train our students for the space of one 1 - 2 weeks depending on their skillsets. Resources such as online courses were also purchased to support this course.

We hope to, after this session further train them on how to exchange their skill for Dollars in platforms tested and approved to be legitimate and fair such as Upwork, Fiverr, Freelance99, and lots more.

We strongly believe that after this exercise is done, we must have successfully graduated at least 250 youths equipped to work and earn independently.

We remain committed to contributing our best to the growth of our society and individuals who do not have these privileges and help interested individuals soar above depression and poverty despite the growing recession and drought that has plagued our nation and the world at large.

For this program, we have adopted slang. THERE IS MONEY, BUT ONLY THE SKILL-FULL CAN FULLY ACCESS IT!

APPRECIATION

We want to sincerely appreciate all our well-wishers, supporters, and sponsors for trusting us with their prayers, kind words, and hard-earned resources (financial and material) to ensure that we reach the unreached and help create a saner society through enlightening the youths of opportunities and equipping them with highly sort after skills and potentials that have played untapped for centuries.

You are our **HERO** and we pray that the good Lord continues to energize you, strengthening your hands and raining abundant blessings on you and yours till you gracefully age and pass on your legacy to the generation you've so inspired.

Our whole team and students are greatly touched by your labor of love.

Best Regards

Apochi Obed
