

# Infographic #1: Stages of Childbirth

You are a guest speaker for a labor and delivery class, where you will present the Stages of Childbirth to pregnant teens. You are tasked with explaining the Stages of Childbirth, using an infographic, to the teens. You will create an interesting visual (infographic) so that the teens will learn about preparation for and onset of labor and the three stages of childbirth, with the following requirements:

- Briefly describe the preparation for and onset of labor
- Explain the First Stage, the Second Stage, and the Third Stage
- Must include four images (e.g., pictures, charts, and graphs) on the preparation for and onset of labor (one image), the First Stage (second image), the Second Stage (third image), and Third Stage (fourth image)
  - You should NOT include a lot of words on the images.
  - Briefly include the required information in a visually pleasing manner.
- Include at least one APA formatted reference at the bottom of each visual

You should put effort into this assignment, but do not feel overwhelmed by creating a visual. There are tools out there to make your information look good and presentable that require no skill or knowledge of graphic design.

You can design the images in any medium you desire, including Microsoft Word, Powerpoint, Photoshop, [Canva.com](https://www.canva.com), [Infogram.com](https://www.infogram.com), or [Easel.ly](https://www.easel.ly).

**Once you have created the images, you will then copy and paste them into ONE Word or PowerPoint document for submission.**
