Wold Improvement & Service District

Did You Know…

Our Wold Community is made up of ninety-eight property owners - hard to tell there are so many cabins when you drive by on the highway! A few live in Wold year-round, a few are here most weekends, and others come whenever their schedule allows. Hope you enjoy your time at your 'Happy Place on the Mountain'.

- We have an annual gathering for our community each year. On the Saturday of Labor Day weekend, we hold our Annual Meeting, typically at the Kokes Shop, 11 Valley Road. We hope you will attend so you can connect with your neighbors and learn about the projects and business going on in our community.
- We communicate with the public in a variety of ways. You will receive emails from the Board from the official email account (woldimprovment@outlook.com) This allows you to keep up-to-date on events and information about Wold. You can have emails delivered to as many accounts and/or family members as you wish. This is always a great way to communicate input and questions with the Board. We also maintain an active website (www.woldimprovement.com) that contains tons of documents and information about Wold.
- We have a great Facebook page, *Wold Tract Community & Friends*, that's nice to follow. It is both informative and fun! You can find out what is happening around the area, get the latest weather alerts, and enjoy sharing pics and stories with your neighbors.
- Tic's Parking is plowed December 1st – March 31st. Parking permits and fees are not required to use this parking lot.
- We have a slash pile which is located on Forest Service ground near the NW corner of Wold. The slash pile is where you can discard of natural debris when cleaning up your property. All materials placed in the pile must be in their natural form – stumps, pine needles, branches, logs, etc. *No treated or painted wood, nails, spikes, etc. are allowed.*
- We have a printed directory and map available listing all property owners in Wold. Please let us know if you need one. Both are available electronically too. Just send an email if you need one emailed to you.
- IMPORTANT: Cell phones do not consistently reach the correct Dispatch Center when you call 911. It depends on which tower the call originates from. Please post the number for ALBANY COUNTY DISPATCH at your cabin and program it in your phone. 307-721-2526 You can reach Albany County directly from this number for all emergency services including fire, Sheriff, and ambulance.
