

PROMPT IMAGE:

Create a highly realistic vertical 9:16 product photography image based on the provided reference images.

REFERENCE IMAGE 1 — SCENE:

Use this image ONLY as the reference for the environment, floor/rug, lighting, camera angle, composition, perspective, and overall visual aesthetic.

Recreate the same type of scene and photographic style.

REFERENCE IMAGE 2 — HANDS:

Use this image ONLY as the reference for the woman's hands, fingers, skin tone, nails, jewelry, hand positioning and proportions.

Recreate the hands naturally in the same position and composition as the scene reference.

REFERENCE IMAGE 3 — CLOTHING:

Use this image ONLY as the reference for the clothing.

Reproduce the clothing EXACTLY as shown in the reference:

- exact colors
- exact patterns and prints
- exact shape
- exact proportions
- exact fabric appearance
- exact seams and edges
- exact straps
- exact waistband
- exact decorative details
- exact bows, prints and graphics
- do not redesign or reinterpret any part of the clothing

COMPOSITION:

Place the clothing neatly arranged on the rug/floor, exactly like a casual real-life clothing product photo.

The top should be positioned above the shorts, with the shorts directly below it.

The woman's hands should naturally appear on both sides of the shorts, gently holding or framing the clothing, matching the reference composition.

CAMERA:

Top-down overhead smartphone photograph.

Camera positioned directly above the clothing.

Natural perspective.

Realistic proportions.

Vertical 9:16 composition.

The entire outfit should be clearly visible and centered.

LIGHTING:

Soft natural daylight coming from a nearby window.

Subtle realistic shadows.

Soft highlights and natural exposure.

No dramatic studio lighting.

No cinematic lighting.

REALISM:

Make the image look like a genuine photograph taken with an iPhone at home.

Natural fabric wrinkles and folds.

Realistic textile texture.

Realistic skin texture.

Natural imperfections.

Authentic casual e-commerce/social media photography.

Photorealistic.

High detail.

Sharp focus on the clothing.

IMPORTANT:

Do NOT combine elements from the different reference images incorrectly.

The SCENE reference controls the environment and composition.

The HANDS reference controls only the hands, nails, jewelry and skin.

The CLOTHING reference controls only the clothing.

Do not change the clothing design.

Do not change the clothing colors.

Do not change the prints.

Do not invent additional clothing details.

Do not add extra objects.

Do not add a person or body.

Do not show a face.

Do not add text.

Do not add logos or watermarks.

Do not create any UI elements.

The final image must look like a real woman photographed her outfit at home with her smartphone, not like an AI-generated image.
