

SL: Instagram Tactics for Studio 9

Hi Manon,

I'm reaching out to see if you're interested in testing out the 2 Instagram ideas I talked about in the last email I sent you.

I believe the ideas will help you stack more clients for Studio 9 faster, and help make Studio 9 the go-to Pilates studio in Amsterdam.

Not a lot of studios around you are making use of Instagram the right way, and I think you could use it effectively to have an edge over them.

If you didn't catch the last email, I recommend you have a look at it to have a better understanding of the ideas.

If it makes sense to you to try the "Emo Boost" caption strategy out, just let me know and I'll apply the strategy to your next 3 Instagram posts, so you can see the results for yourself without any costs.

All the best,
Nooh
