ABSTRACT

Title
Formulate a clear and informative title using Title Case (Capitalize Major Words), not exceeding 15 words.

Author(s) and Affiliation(s)
First Author[1], Second Author[2]
[1]Department/Institution, City, Country
[2]Department/Institution, City, Country

(Name and e-mail address of the corresponding author's email address)

Abstract
Background: Provide a brief description of the research context and rationale. Clearly articulate the knowledge gap or issue being addressed.
Objective: Explicitly state the main objective(s) of the study in a clear and concise manner.
Methods: Outline the methodology, including the research design, analytical tools, statistical techniques or models, or experimental procedures used.
Results: Summarize the key findings supported by specific data or evidence. Quantitative results, including statistical values, are preferred where applicable.
Conclusion: Highlight the primary contributions of the study and discuss their broader academic or practical implications.

Keywords
List 3–5 relevant keywords, separated by commas (e.g., sustainable energy, optimization, climate policy, Indonesia).
