

State the Problem: (this is a question)

Research:

Rationale:

Hypothesis:

My supplies:

My Plan:

The results: (usually a picture or a graph)

My Conclusion:

Looking at our results, it is clear that our original hypothesis was _____. One way we know it is (wrong or right) is that _____. We think this happened because _____. Another interesting that that happened was that _____. I think this was because _____. In conclusion, it turns out that _____. If I were to do this again, two things I would change would be _____.
